Principal's Message

Dr. Krishan Kant Gupta

Dear Students

Welcome to Aggarwal College family! At the onset, I congratulate all my colleagues and students for the unparalleled achievements in academics and other arenas in recognition to which the UGC has granted the prestigious status of 'College with Potential for Excellence' to our College. Kudos to all for their outstanding contribution!

To think beyond the common constitutes the fabric of the Vocational Programs, launched by your college. These are started with the aim to nurture young minds right from the beginning towards building a successful career.

Today's economy demand is characterized by skilled manpower, modern technology and effective implementation of imparted academic training. It gives me immense pleasure to get the students introduced to these courses. The courses will make them wholly prepared to accept several challenging fields as their career, rather it is our dream to make it happen. Our efforts will be to keep pace with the technological demands of industry and expanding universe of knowledge. We are committed to provide the best opportunities in education and overall skills development of our students in their pursuit of knowledge. We will work to provide a conducive atmosphere for talent identification and skill development to enable the target student population to attain hitherto untouched heights in scholastic excellence. Our main motto is to produce high quality manpower capable of catering the needs of the globalized economy.

Best wishes to all students, who will ever remain the prime impetus for us, with the note that they are welcome to enjoy the learning and skill building in our campus. Let us join our hands and stride towards a wonderful tomorrow.

Dr. Krishan Kant Gupta
(Principal)

CONTENTS

S.No.	Name	Page No.
I.	Index.....	1-3
II.	Certificate Courses.....	4-124

1.	2009-10	Certificate Course in Computer Education
2.	2014-15	Certificate Course in Software Development
3.	2015-16	Certificate Course in Retail Management
4.	2017-18	Certificate Course in Personal Computing and Digital Lifestyle
5.	2017-18	Certificate Course in Advance Business Analysis tools and Techniques
6.	2017-18	Certificate Course in Computerized Financial Accounting Using Tally ERP 9, level 1.
7.	2017-18	Certificate Course in Computerized Financial Accounting Using Tally ERP 9, level 2.
8.	2017-18	Certificate Course in Corporate Finance and Management Accounting
9.	2017-18	Certificate Course in Capstone Project using Tally ERP 9
10.	2017-18	Certificate Course in Computer overview and programming structure and Methodology
11.	2017-18	Certificate Course in Working with MS Office 2013
12.	2017-18	Certificate Course in Logic Building and Effective Problem Solving
13.	2017-18	Certificate Course in Information Systems and Common Business Processes
14.	2017-18	Certificate Course in JAVA 7
15.	2017-18	Certificate Course in Professional Skills
16.	2017-18	Certificate Course in Capstone Project using Tally ERP 9with GST and implementation of TDS transactions.
17.	2017-18	Certificate Course in French
18.	2017-18	Certificate Course in MS Office

20.	2017-18	Certificate Course in Cyber Security
21.	2017-18	Certificate Program in LIFE with specialization in Human Values & Ethics.

22.	2017-18	Certificate Program in LIFE with specialization in Women Empowerment.
23.	2017-18	Certificate Program in LIFE with specialization in Gender Sensitization.
24.	2017-18	Certificate Program in LIFE with specialization in Gender Equality.
25.	2017-18	Certificate Course in Honing the Millennial – Next Gen
26.	2017-18	Certificate course in Physical Fitness, Empowerment and Development of Self Defence Skills
27.	2017-18	Certificate Course in Tally with GST
28.	2018-19	Certificate Course in Abacus Trainer Training Program (ATT)
29.	2018-19	Certificate Course in Vedic Maths Trainer Training Program (VTT)
30.	2018-19	Certificate Course in Industry Recognized Personality Development Program & Spoken English Program (IRPDP-SEP)

III. Add-on Courses 125-160

1	2010-11	Certificate Course in Accounting on Computers
2	2012-13	Certificate Course in Functional English
3	2012-13	Certificate Course in Web Designing and Office Automation
4	2014-15	Certificate Course in Computer Hardware and Maintenance
5	2014-15	Certificate Course in Accountancy and Tax Procedure
6	2014-15	Certificate Course in Retail Marketing

IV. Diploma Courses 161-224

1	2013-14	Diploma Course in Computer Education
2	2014-15	Diploma Course in Software Development
3	2015-16	Diploma Course in Retail Management
4	2017-18	Diploma Course in Financial Accounting
5	2017-18	Diploma Course in Computer Application

V. Advance Diploma Courses 225-292

1.	2014-15	Advance Diploma Course in Computer Education
2.	2015-16	Advance Diploma Course in Software Development
3.	2016-17	Advance Diploma Course in Retail Management

Certificate Courses

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Computer Education

Paper L1.1: Fundamentals of Computers

Computer: Definition, Classification of Computers, Characteristics of Computers, Basic Applications of Computers, Generations of Computers.

Components of Computer System: Central Processing unit (CPU), Input/ Output Devices,

Computer: Memory; Primary and Secondary Memory, Magnetic and Optical Storage Devices, Concepts of Hardware and Software.

Data Processing: Concepts of Data Processing, Definition of Data and Information Basic data types, storage of Data/ Information as Files, Representation of Data/ Information.

Operating System: MS -Windows

Operating System - Definition & Functions, Basics of Windows, Basic Components of Windows, Icons, Types of Icons, Taskbar, Activating Windows, Using Desktop, Title Bar, Running Application, Exploring Computer, Managing Files and folders, Copying and Moving files and folders.

Control Panel - Display Properties, Adding and Removing Software and Hardware, Setting Date and Time, Screensaver and Appearance.

Using Windows Accessories.

Word Processing: MS Word

Word Processing Basic : An Introduction to Word Processing and MS-Word, Working with Documents, Using tables, pictures and charts Using mail merge and sending a letter to a group of people, Creating forms, letters and labels, Collaborating with Workgroups, Modifying a report, Macros.

Software Lab

MS-Windows

1. Create a new folder and do the following:

1. Make a Word document in it.
2. Make an Excel document in it.
3. Make a new folder in it.
4. Rename the initial folder
5. Move the initial folder.
6. Copy the initial folder.
7. Delete the initial folder.

2. Implement the various well known features of Windows operating system such as Notepad, WordPad, Paint, System Tools, Entertainment etc. enclosed in Start o Programmes - >Accessories.

3. Implement various display properties by right clicking on the Windows Desktop.

4. Explore the taskbar of Windows.

5. Set the wall paper and screen saver.

6. Set the data / time.

MS-Word

1. Create a document and

- a. Put Bullets and Numbers
- b. Apply various Font parameters
- c. Apply Left, Right and Centre alignments.
- d. Apply hyperlinks
- e. Insert pictures
- f. Insert Clip Art
- g. Show the use of Word Art
- h. Add Borders and Shading

- i. Show the use of Find and Replace.
 - j. Apply header/ footers
2. Create any document and show the use of File versions.
 3. Create any document and show the difference between paste and paste special.
 4. Create a document to show the use of Washout/ watermark.
 5. Implement the concept of mail merge.
 6. Implement the concept of macros.
 7. Implement the concept of importing a file/ document.
 8. Implement the concept of merging the documents.
 9. Create a student table and do the following.
 - a. Insert new row and fill a data.
 - b. Delete any existing row.
 - c. Resize rows and columns.
 - d. Apply border and shading.
 - e. Apply merging/ splitting of cells.
 - f. Apply sort
 - g. Apply various arithmetic and logical formulas.
 10. Create your resume using General Templates.

Paper-L1-II :Presentation Software and Computer Communication

Presentation Software - MS Power Point.

Creating and enhancing a presentation, creating and publishing a web presentation modifying a presentation, working with visual elements, delivering a presentation and designing a template. **Computer Communication**

Basic of Computer Networks: LAN, WAN, MAN.

Internet: Introduction to Internet and its Applications/ Services. Service on Internet :WWW and Websites, Electronics Mails, Communication on Internet.

Web Browsers: Internet Explorer, Netscape Communicator.

Surfing the Internet: Giving the URL Address, search, Moving Around in a website. Saving of Webpage, Printing of Webpage, downloading the data.

Chatting on Internet

E-Mail: Basic of Electronics Mail Creating, E-Mail Id, Mail box : Inbox and Outbox.

Using E-Mails: Viewing an E-mail, Sending an E- Mail, Saving E-Mail, Sending same mail to various users, Document Handling: Sending soft copy as attachment, Enclosures to E-Mail, Sending a Portion of Document as E-Mail.

MS-Outlook: Read mail and news Composing message, Sending and Replaying E-Mails, Maintaining address book, Finding people, Attaching files.

Software Lab

Presentation Software- MS Power Point

1. Make a presentation of College Education System using.
 - a. Blank Presentation
 - b. From Design Template
 - c. From Auto Content Wizard
2. Make a presentation on "Wild Life" and apply the following:-
 - a. Add Audio and Video effects
 - b. Apply various Colour Schemes

c. Apply various Animation Schemes.

d. Apply Slide Show

Computer Communication Related Practical

1. Connect the Internet; open any website of your choice and save the Webpages.
2. Search any topic related to your syllabi using any search engine and download the relevant material.
3. Send any greeting card to your friend.
4. Create your E-Mail ID on any free E-Mail Server.
5. Login through your E-Mail ID and do the followings:-
 - a. Read your mail
 - b. Compose a new Mail
 - c. Send the Mail to one person.
 - d. Send the same Mail to various persons.
 - e. Forward the Mail
 - f. Delete the Mail
 - g. Send files as attachment.
6. Surf Internet using Google to find information about your State.
7. Surf Internet using Google to find Tourism Information about your State.
8. Surf Internet using Yahoo to find Hotels around your State.
9. Surf Internet using Google to find Information about Educational Institutes for teaching MS in Computer Science in India.
10. Surf Internet using Google to find information about Indian Cricket Team.

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Retail Management

Duration	6 Months
Course Code	Course Name
BVRM-101	English
BVRM -102	Basics of marketing
BVRM -103	Fundamentals of Customer Services
BVRM -104	Basics of Retailing
BVRM -105	Project Work (Safety methods at work Place)
BVRM-106	Computer Practical-I (MS-Office)

BVRM -101: ENGLISH

External Marks: 60

Internal Marks: 40

Time: 3 hours

Total Credits as per Qualification pack: 5

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Objective:

- To make the students conversant and fluent in English
- RAS/ NO114 To Process credit applications for purchases
- RAS/ NO126 To help customers choose right products
- RAS/ NO130 To create a positive image of self and organisation in the customers mind
- RAS/ NO132 To resolve customer concerns
- RAS/ NO134 To improve customer relationship
- RAS/NO 137 To work effectively in your team
- RAS/NO 138 To work effectively in your organisation

UNIT I

Tenses, Auxiliaries, Subject-Verb Concord, , Conjunction, Preposition, Articles.

UNIT II

Synonyms/Antonyms, Homophones, Prefix, Suffix, One Word Substitution.

UNIT III

Translation (Hindi to English), Retranslation (English to Hindi) Curriculum Vitae, Paragraph Writing on current and business issues.

UNIT IV

Comprehension, , Dialogues Writing, Voices, Narration

SUGGESTED READINGS:

1. Communication Skills in English by D.G. Saxena & Kuntal Tamang
2. *Word Power Made Easy* by Norman Lewis
3. Remedial English *Grammar* by Frederick T. Wood
4. Intermediate Grammar Usage & Composition by Tickoo M.L.

Note: Latest and additional good books may be suggested and added from time to time.

BVRM-102 BASICS OF MARKETING

External Marks: 60

Internal Marks: 40

Time: 3 hours

Total Credits as per Qualification pack: 5

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Objective:

- To help students to understand the concept of marketing and its applications
- To expose the students to the latest trends in marketing.
- RAS/NO 135 to monitor and solve service problems
- RAS/NO 136 to promote continuous improvement in service

Store security, Maintaining health and safety: measures of stores safety to be adopted, techniques and methods to keep employees healthy and safety measures in store.

BVRM -106: COMPUTER PRACTICALS-I (MS Office)

Max. Marks: 100

Total Credits as per Qualification pack: 5

PRACTICAL

Objective: To enhance the knowledge about the usage of the Computer and IT in retail business

I - MS WORD

1. Type Chairman's speech/ Auditor's report / Minutes/ Agenda and perform the following operations: Bold, Underline, Font Size, style, Background color, Text color, Line spacing, Spell Check, Alignment, Header & Footer, Inserting pages and page numbers, Find and Replace.
2. Prepare an invitation for the college function using Text Boxes and Clip Arts.
3. Design an Invoice and Account Sales by using Drawing Tool Bar, Clip Art, Word Art, Symbols, Borders and Shading.
4. Prepare a Class Time Table and perform the following operations: Inserting the Table, Data Entry, Alignment of Rows and Columns, Inserting and Deleting the Rows and Columns and Change of Table Format.
5. Prepare a Shareholders meeting letter for 10 members using mail merge operation.
6. Prepare Bio-Data by using Wizard/ Templates.

II- MS-EXCEL

1. Applications of a Spreadsheet; Advantages of an Spreadsheet; Features of Excel; Rows, Columns, Cell, Menus, Creating worksheet, Formatting, Printing, establishing worksheet links, Table creating and printing graphs, Macros, Using Built-in-functions.

Aggarwal College Ballabgarh

A Post Graduate Co-educational College

(Affiliated to M. D. University, Rohtak)

NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Personal Computing and Digital Lifestyle

Objective

This Course enables the learner to use MS Office Excel 2013 to analyze and calculate complex data

Benefit

After completing this course, student will be able to apply advanced features of MS Excel 2013 and benefit at their work place by increasing productivity and efficiency.

Duration

50 Hours

Examination

Semester-1

Paper	Title of the paper
Paper-1	Understanding Data using MS Office
Paper-2	Data Analysis using MS Office Excel 2013

Course contents & Syllabus

Understanding Data using MS Office –Paper 1

- Organize, analyze and present data for operations and reporting purposes
 - Worksheets.
 - Workbook.
 - Cells.
 - Rows and columns.
 - Represent data in rows and columns
- Perform "what-if" & data analysis for developing financial, marketing and plans
 - Goal seeks.
 - Scenario Manager.
 - Solver.
- Use tools & techniques to process and enhance the usefulness of data
 - Conditional formatting.
 - Summarizing Data.

- Organize and process statistical, mathematical, financial, and logical data
 - Mathematical functions.
 - Financial functions.
 - Logical functions.

Data Analysis using MS Office Excel 2013– Paper 2

- Employ new approaches such as PowerPivot for tabulating and managing data.
 - Pivot tables.
 - Usage of Pivot tables.
 - Sorting and filtering.
 - Conditional formatting.
- Create management dashboards dynamically using PowerPivot & Power View
 - View selected data.
 - View data using charts.
- Translate analysis into meaningful charts and graphs for better visual appeal
 - Graphs
 - Different types of Graphs.
 - Representing data using graphs.
- Analyze, interpret, summarizing, and presenting data using PivotTables and PivotCharts
 - Pivot charts using pivot tables.
- Automate repetitive tasks to minimize manual labor in data analysis
 - Macros.
 - VB builder.

Aggarwal College Ballabgarh

A Post Graduate Co-educational College

(Affiliated to M. D. University, Rohtak)

NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Advance Business Analysis tools and Techniques

Objective

This Course enables the learner to understand & apply scenario based problem solving techniques.

Benefit

After completing this course, student will be able to perform financial analysis and use financial techniques.

Duration

50 Hours

Examination

Paper	Title of the paper
Paper-1	Introduction of Business Analysis
Paper-2	Financial Analysis and Techniques

Course contents & Syllabus

Introduction of Business Analysis – Paper 1

- Financial Statements
 - Identify the three constituents of financial statements
 - Identify the uses of financial statements
 - Learn about appreciation and depreciation
 - Learn about ageing analysis
 - Identify the steps to process import data into excel from web
- Financial Calculations and Formulas
 - Learn to calculate the present value of an uneven cash flow
 - Understand the meaning of sinking fund
 - Identify the types of perpetuity
 - Learn to calculate the present value of perpetuity
 - Learn to calculate PMT, future value and NPV using excel formulas

- Bond and Equity Valuation
 - Identify the various methods of bond valuation
 - Identify the terms and terminologies associated with bond valuation
 - Identify common yield measures
 - Learn about investment risk and returns
- Ratio Analysis-Part 1
 - Identify the role of financial ratios in analysing financial data
 - Identify the types of liquidity ratios
 - Identify the types of turnover ratios
- Ratio Analysis-Part 2
 - Understand the meaning of accounting ratios
 - Identify the objectives of accounting ratios
 - Identify the types of capital structure ratios
 - Identify the types of coverage ratios

Financial Analysis and Techniques – Paper 2

- Budgets and Budgetary Control
 - Define budget
 - Identify the advantages of making budget
 - Understand the meaning of budgetary control
 - Define financial models and its components
 - Identify the objectives of budget
 - Identify the methods used for forecasting sales in an organisation
 - Define cash budget
 - Identify the limitations of budget
- Evolution of Money and Banking
 - Trace the evolution of money
 - Trace the evolution of banking
- Financial Intermediaries
 - Understand the need of financial intermediaries
 - Identify various types of financial intermediaries
- Role of Banks
 - Appreciate banking as a business trust
 - Define the loan or credit services offered by the banks
 - Define retail credit services offered by banks
 - Define wholesale or corporate credit offered by banks
 - Define the services offered by banks as consultant to the payment system
- Technology and Trends in Banking
 - Identify the role of technology in banking
 - Identify new products in banking leveraging technology

- KYC and AML Guidelines
 - Identify and follow the Know Your Clients (KYC) guidelines
 - Understand the KYC policy and procedures

Certification

Certificate in Advance Business Analysis tools and Techniques

Project: 20 hours

Using Advance Excel to do Analysis (Case Study).

Aggarwal College Ballabgarh

A Post Graduate Co-educational College

(Affiliated to M. D. University, Rohtak)

NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Computerized Financial Accounting Using Tally ERP 9, level 1

Objective

This Course enables the learner to introduce accounting on computers Using Tally ERP 9.

Benefit

After completing this course, the learner acquires necessary knowledge & Skills required for effectively manage accounting & inventory.

Duration

52 Hours

Examination

Paper	Title of the paper
Paper-1	Introduction of Accounting
Paper-2	Fundamentals of Tally ERP 9

Course contents & Syllabus

Introduction of Accounting – Paper 1

- Fundamentals of Accounting
 - Understand the meaning of accounting
 - Identify the importance of accounting
 - Identify the terms used in accounting
 - Understand the accounting assumptions, concepts and principles
 - Identify the types of accounts
 - Learn and follow the golden rules of accounting
 - Understand the double entry system of accounting
- Journalizing and Posting of Transactions
 - Classify transactions according to their nature
 - Learn about subsidiary book and control accounts
 - Learn about trial balance

- Learn about trading and profit & loss account
 - Match balance sheet
- Maintaining Chart of Accounts in Tally.ERP9
 - Gain knowledge about computerized accounting
 - Create a company
 - Select and shut a company
 - Set companies chart of accounts by creating ledgers and groups
 - Display the company chart of accounts
- Fundamental of Inventory Management
 - Understand the meaning of inventory
 - Learn about inventory management
 - Identify the terms used in inventory management
 - Identify different types of inventory valuation
- Stock Keeping Units
 - Create stock groups
 - Create units of measure
 - Create stock items and godowns
 - Define stock opening balance
- Recording of Day to Day Transactions
 - Record contra vouchers
 - Record payment and receipt vouchers
 - Record sales and purchase vouchers
 - Record credit note and debit note vouchers
 - Record journal and optional vouchers
 - Record memorandum voucher
 - Record inventory vouchers
 - Record stock transfers
- Accounts Receivable and Payable Management
 - Maintain party-wise bill details in Tally .ERP9
 - Keep track of receivable and payables
 - Set-off bills using the different methods of adjustment
 - Make partial and full payment entries
 - Record credit transactions
 - Manage outstanding credit limits
 - Manage performance of debtors
 -

Fundamentals of Tally ERP 9 – Paper 2

- Banking
 - Configure cheque printing
 - Manage cheque in Tally.ERP9
 - Print cash and cheque deposits slips
 - Print payment advice

- Perform bank reconciliation
 - Record post-dated cheque
 - Activate auto bank reconciliation
 - Activate auto bank reconciliation in Tally.ERP9
 - Manage E-payments in Tally.ERP9
 - Check e-payments reports
- Incomes
 - Create and maintain the cost categories
 - View reports relating to cost centres and cost categories
 - Create and maintain cost centres class
 - Generate reports related to cost centre and categories
- MIS Reports
 - Identify and list the purpose of different MIS reports
 - Generate MIS reports in Tally .ERP9
 - Customize and analyse MIS reports in Tally .ERP9
- Storage and Classification of Inventory
 - Learn to manage godowns
 - Create and store inventories in godowns
 - Record purchase and sales vouchers with godowns
 - Identify stock categories
 - Maintain summary reports
 - Create and maintain batch-wise details
 - Record transaction by honouring the expiry date of batches
- Management of Purchase and Sales Cycle
 - Handle complete sales and purchase order processing
 - View order details and outstanding reports
 - Close orders due to cancellation, lack of stocks of return of goods etc
- Price Levels and Price Lists
 - Create and maintain price levels and price lists
 - Use price lists while passing invoice
- Manufacturing Process
 - Understand manufacturing process
 - Create manufacturing journal voucher
 - Record stock journal vouchers
 - Check reports like cost estimation and transfer analysis

Certification

Certificate in Computerized Financial Accounting Using Tally ERP 9, level 1

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Computerized Financial Accounting Using Tally ERP 9, level 2

Objective

This Course enables the learner to work on tax and Payroll management using Tally ERP 9.

Benefit

After completing this course, the learner acquires necessary knowledge & Skills required for applying statutory compliance and implementing payroll using Tally ERP 9

Duration

52 Hours

Examination

Paper	Title of the paper
Paper-1	Basics of Taxes
Paper-2	Payroll Management using Tally ERP 9

Course contents & Syllabus

Basics of Taxis – Paper 1

- Getting Started with GST 1
 - Activate GST for a company in Tally.ERP9
 - Record and maintain GST registration details for the company
 - Transfer input credit
 - Print GST invoices
 - Record good return
 - Define tax rated at different level
 - Record GST tax payment
 - Generate GSTR-1 and GSTR-2 reports
 - Export GSTR 1 return
 - Learn about the accounting of supply of services and exempted services

- Getting Started with GST 2
 - Activate GST for a company in Tally.ERP9
 - Record and maintain GST registration details for the company
 - Transfer input credit
 - Print GST invoices
 - Record good return
 - Define tax rated at different level
 - Record GST tax payment
 - Generate GSTR-1 and GSTR-2 reports
 - Export GSTR 1 return
 - Learn about the accounting of supply of services and exempted services
- Tax Deducted at Source 1
 - Configure tax deducted at source in Tally.ERP9
 - Configure TDS at different levels
 - Record different types of TDS transactions
 - Handle expenses partly subjected to TDS
 - Manage the accounting of multiple expenses
 - Manage accounting of TDS at zero and lower rate
 - Manage accounting of TDS on fixed assets
 - Manage payment of TDS to government
 - Generate TDS reports and challans
- Tax Deducted at Source 2
 - Configure tax deducted at source in Tally.ERP9
 - Configure TDS at different levels
 - Record different types of TDS transactions
 - Handle expenses partly subjected to TDS
 - Manage the accounting of multiple expenses
 - Manage accounting of TDS at zero and lower rate
 - Manage accounting of TDS on fixed

Payroll Management using Tally ERP 9 – Paper 2

- Securing Financial Information
 - Learn to use security control features to secure financial data
 - Create and alter security levels in Tally.ERP9
 - Create users and passwords under different security levels
 - Learn to login with different user credentials
 - Use Tally Vault to secure the financial data
 - Identify the benefits of Tally Vault password
 - Understand the meaning of password policy
- Data Management and Financial Year End Process 1
 - Backup and restore company data in Tally.ERP9
 - Export and import data in Tally.ERP9
 - Export data in different formats like Excel and PDF

- Know the E-mailing capabilities of Tally.ERP9
 - Learn to use E-mail facility in Tally.ERP9
 - Learn to split the company data
- Data Management and Financial Year End Process 2
 - Backup and restore company data in Tally.ERP9
 - Export and import data in Tally.ERP9
 - Export data in different formats like Excel and PDF
 - Know the E-mailing capabilities of Tally.ERP9
 - Learn to use E-mail facility in Tally.ERP9
 - Learn to split the company data

Certification

Certificate in Computerized Financial Accounting Using Tally ERP 9, level 2

Project: 20 hours

Implementation of TDS / TCS and Tax transactions.

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Corporate Finance and Management Accounting.

Objective

This Course enables the learner to understand corporate finance and Accounts Management.

Benefit

After completing this course, student will be able to understand capital Management and Capital budgeting.

Duration

48 Hours

Examination

Paper	Title of the paper
Paper-1	Fundamental of Financial Management
Paper-2	Corporate Finance and Accounts Management

Course contents & Syllabus

Fundamental of Financial Management – Paper 1

- Introduction to Financial Management
 - Describe subject of financial management
 - Identify the goals of the financial management
 - Understand the basics of Financial management
- Strategic Financial Management
 - Identify the Types of Finances.
 - Learn About the financial decision making.
 - Understand the fund requirement of the organization.
 - Understand the significance of strategic financial planning.

- Estimate financial requirements.
 - Identify the methods and tools of financial management
 - Identify the types of risks associated with business
 - Learn to calculate operation and net profit
 - Understand the relevance of time value of money in financial decisions
 - Identify basic jargons used in finance
 - Understand the nature of financial analysis
- Tools of Financial Analysis
 - Understand nature and types of financial analysis
 - Understand the advantages and disadvantages of financial analysis
 - Understand various tool of financial analysis
- Working Capital Management & Capital Budgeting :
 - Understand the various concepts relating to capital budgeting
 - Understand various concepts relating to capital investment decisions
 - Understand the factors affecting capital investments and project evaluation
- Capital Investment Decision
 - Understand various techniques of capital budgeting decisions making
 - Understand practical application of various capital budgeting techniques
- Capital Budgeting Principles and Techniques
 - Understand the meaning of risk and uncertainty
 - Identify the risk and investment proposals
 - Describe the risk and uncertainty incorporated methods of capital project evaluation
- Source of Finance
 - Gain knowledge about the long-term sources of finances
 - Gain knowledge about short term sources of finance
- Long Term Sources and Short term sources of finance
 - Choose between short-term and long-term source depending upon the objective
 - Determine the best suited resource among the various short-term and long term resources
 - Apply the characteristic features of new instruments and incorporate them in a given business depending upon their characteristic features and advantage
- Bank Finance
 - Understand Term Loan Concepts
 - Identify Steps involved in term loans
 - Identify the Terms and conditions for granting term loans for projects
 - Identify the Procedure for Loan Disbursement
 - Identify the term lending institutions in India
 - Identify the steps in Term Loan Processing
 - Identify the procedure for term loan
 - Know the Loan Amortization Schedule.
- Project Appraisal

- Understand the concepts relating to Project Report
 - Understand elements of Financial Analysis
- Determination of capital structure
 - Get introduced to capital structure
 - Identify the features of appropriate capital structure
 - Identify the forms of capital structure
 - Identify the need for capital structure
 - Identify the key considerations in capital structure planning
 - Identify the factors influencing pattern of capital structure
 - Identify the determinant of capital structure
 - Identify the principles of capital structure decisions
 - Know the criteria for determining pattern of capital structure
 - Understand the capital structure theories
 - Learn about taxation and capital planning
 - Understand the relevance of debt-equity ratio in public enterprises
- Capital Structure and cost of capital
 - Learn and follow capital structure policies
 - Learn and follow guidelines for capital structure decisions
 - Understand the relationship between EBIT and EPS
 - Identify the importance of IT in finance
- Leverages
 - Identify the characteristics of leverage
 - Identify the types of leverage
 - Identify the uses of leverage
 - Analyse EBIT and EPS
 - Identify the importance of leverage
- Cost of Equity, Cost of Debt and Cost of retained earnings
 - Calculate cost of equity
 - Calculate cost of preference share capital
 - Calculate cost of retained earnings
 - Calculate cost of debt
 - Identify the managerial decisions effects on cost of capital
- Weighted Average Cost of Capital (WACC)
 - Understand the concept of WACC
 - Learn to calculate WACC
- Cost of capital and Required Rate of Returns
 - Learn about cost of capital and required rate of returns(RRR)
 - Identify the determinants of required rate of return
 - Understand the use of cost of capital in managerial decisions
 - Learn about the cost of capital strategy in business

Corporate Finance and Accounts Management –Paper 2

- Management of Finance
 - Identify balancing financial goals concerning substantial growth
 - Identify the changing paradigm in financial goals
 - Understand the shifting approach in finance organization

- Working With Capital Management
 - Estimate the different components of current assets
 - Learn how to arrive at required working capital requirements
- Cash Management
 - Understand practical aspects of cash management
 - Understand relevance of cash management in finance
- Receivable Management
 - Understand the importance of receivable management
 - Identify the credit management process
 - Identify the factors affecting policies for managing accounts receivables
- Inventory Management
 - Identify the techniques of inventory management
 - Identify the steps for integrated working capital planning
 - Learn about the inventory management strategy and systems
 - Learn to reduce cost through inventory management
- Indian Financial Market.
 - Identify the constituents of a financial system
 - Learn about money market and capital market
 - Understand the regulatory framework
 - Learn about the financial market development in India
 - Learn about stock exchanges
- Financial Market Operations
 - Gain knowledge about Indian financial system reforms
 - Learn about public issue
 - Learn about underwriting of shares
 - Learn about corporate governance
- Management of Financial Services
 - Identify the agencies providing financial services
 - Classify financial intermediaries in India
 - Identify the scope of financial services
 - Identify new financial products and services
 - Identify the sources of revenue of financial intermediaries
 - Identify the challenges faced by financial services sector saving mobilisation
 - Identify the modern activities of financial services
 - Understand the financial services operations in India
- Globalization of Financial Markets International Financial Management
 - Identify the facets of globalization and their manifestations
 - Identify the constituents of sound governance in the contemporary world
 - Learn about the developments in global finance
 - Identify the recent changes in global financial markets
 - Understand AS-31 and AS-32
 - Learn about European monetary system
 - Learn about American depositary receipt and global depositary receipt (GDR's)
 - Identify the functions of Learn and identify the meaning and scope of international finance
 - Learn about foreign exchange market
- Financial Derivatives

- Identify the basic financial derivatives
- Identify the features of financial derivatives
- Learn about financial engineering growth and development
- Identify the characteristics of financial engineering
- Identify the reasons for rapid growth in financial engineering
- Identify the tools of financial engineering
- Identify the benefits of financial engineering
- Identify the uses of financial engineering
- Restructuring of Business
 - Discuss the meaning and Different forms or types of Corporate Restructuring
 - Understand the terms used in Corporate Restructuring and Categories of Corporate Restructuring
- Financial Reporting Regulations
 - Understand IFRS and Indian Situation
 - Understand GAPP (Generally Accepted Accounting Principles)
- Investment Analysis
 - Learn the concepts of Investment Analysis
 - Understand CAPM and APT Model
- Portfolio Management
 - Understand the concepts of Portfolio Management
 - Learn the measures of Portfolio
- Dividend Policy
 - Understand the meaning of dividend
 - Identify the types and purpose of Dividend
 - Identify various factors which influence the determination of Dividend Policy
- Performance Measurement Criteria
 - Understand the concept of Corporate Governance
 - Understand corporate governance in financial sector
- Ethical issues in Financial Management
 - Understand the importance of Ethics in Business Finance
 - Understand Ethical Issues in financial Management

Certification

Certificate in Corporate Finance and Management Accounting.

Aggarwal College Ballabgarh

A Post Graduate Co-educational College

(Affiliated to M. D. University, Rohtak)

NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Capstone Project using Tally ERP 9

Objective

This Course enables the learner to implement the tools & techniques learnt in the entire program and helps student to develop inter personal skills.

Benefit

After completing this course, student will be well versed with all contents learnt in previous semesters

Duration

48 Hours

Examination

Paper	Title of the paper
Paper-1	Professional Skill Development
Paper-2	Project Study on TDS, Finance and Accounts

Course contents & Syllabus

Professional Skill Development –Paper 1

- Effective Conversation.
 - Identify the importance of conversation in communication
 - Explain the stages in a conversation
 - Identify the constituents of a good conversation
 - Understand the techniques to improve conversation
 - Identify common errors in speech
 - Practice conversational skills through role play
- Assertive Communication
 - Assess your assertive communication skills
 - Identify the features of assertive communication
 - Understand the techniques for assertiveness
 - Understand types of questions
 - Practice asking quality questions

- Written Communication
 - Identify the need of effective business writing
 - Understand the types of business writing
 - Appreciate and use five C's of effective writing
 - Identify and correct mistakes in writing
 - Identify how to make business writing effective
- Self-Presentation
 - Understand the concept and importance of first impressions
 - Understand the concept of 'self-brand'
 - Understand the importance of creating a visual identity
 - Understand grooming guidelines
- Working in Teams.
 - Understand teamwork and the importance of working in teams
 - Understand team roles and the responsibilities of a team member
 - Explain effective leadership
- Critical Thinking and Problem Solving
 - Apply critical thinking and problem solving techniques and processes
 - Summarise the process and conclusions derived
 - Perform project management activities to fulfil the requirement of the assigned project
- Health, Safety and Security
 - Explain the need for workplace safety
 - Explain the basic workplace safety guidelines
 - Identify the common safety signs used
 - Identify and address security tests and risks
- Planning and Prioritizing
 - Explore the various strategies of effectively utilizing the available time
 - Create an action plan to manage time
 - Identify your role and responsibilities in carrying out your work
 - Identify the need to plan and organize your work to achieve targets and deadlines
- Values and ethics concepts
 - Understand the importance of business ethics
 - Understand the importance of business values
 - Identify the role of business values on quality and business growth
 - Evaluate what is responsibility and how to become responsible
 - Apply the guidelines for showing respect and maintaining integrity
- SWOT and Self-Awareness
 - Recognize personal strengths and weaknesses
 - Understand Personal Quality Initiative (PQI)
 - Create a self-development plan
- Providing Data in Various Formats
 - Understand the importance of presenting data in professional life
 - Identify the guidelines when presenting data
 - Identify the tools used to present and report data
 - Identify the different formats and reporting types used in professional life
- Develop your knowledge, skills, and competence
 - Provide data/ information in standard formats
 - Identifying training needs
 - Understanding Organization Policies and Procedures
 - Aptitude Test practice
- Understanding Organization Policies and Procedures

- Understand the need of organization policies and procedures
- Identify the common policies and procedures used in organizations

Project Study on TDS, Finance and Accounts –Paper 2

Case Study based project using the tools & techniques learnt in the entire program.

- Create the company in Tally ERP9.
- Creation of Master
- Creation of ledgers as per opening Trial Balance.
- Create Stock Group.
- Create Stock items.
- Enter transactions for April to 1st Jul 2017.
- Enter transactions for 2nd Jul 2017 to Aug 2017.
- Configure TDS in Tally.ERP9.
- Enter transactions related to TDS.
- Generate TDS report.
- Create Stock Summary as on 2nd Jul 2017.
- Display Trial Balance as on 2nd Sep 2017.
- Daybook Report from 1st Jul 2017 to 02nd Sep 2017.
- Clear backlog (if any).

Certification

Certificate in Capstone Project using Tally ERP 9

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Computer Overview and Programming Structure and Methodology

Objective

This program will enable the students to get overview of the computers and program structure and methodology.

Benefit

Core concepts of program structure and methodology which enables student to get basics of programming.

Duration

59 hours

Examination

Paper	Title of the paper
Paper-1	Introduction to computer and Operating System
Paper-2	Understanding Programming and Software Applications

Course contents & Syllabus

Introduction to computer and Operating System – Paper 1

- Identify various computer systems
 - Mini computers
 - Micro Computers
 - Desktop computers
 - Laptop
 - Palmtop
 - Super computers
- Identify components of a PC system
 - Motherboard
 - Hard disk
 - LAN card
 - Pen drive
 - Floppy drive
 - CD Drive

- Printers
 - Plotters
 - Keyboard
 - Monitor
 - Central Processing Unit
 - Mouse
- Identify types of files used to organize data
- Work with Windows
 - User Interface
 - Graphical user interface
 - Character user interface
 - Desktop
 - My computers
 - Folders and files
 - Cut copy and paste.
- Work with Linux
 - Why Linux.
 - Properties of operating system.
 - Commands in Linux.
 - Graphical user interface in Linux.

Understanding Programming and Software Applications – Paper 2

- Use Internet and Social Networking media
 - How to use
 - Why to use.
 - Search engines
- Understand the need of Critical Thinking and Problem Solving in programming
 - What is Critical Thinking?
 - Why is critical thinking required?
 - Demonstration of critical thinking through practical.
- Get acquainted with Digital Data
 - What is digital data and where we use it.
- Use algorithms for designing programs
 - Logic building.
 - Create flow charts.
 - Write pseudo codes.
- Identify and apply software testing techniques
 - What is a need to software testing?
 - Different tools of software testing.
- Work with MS word 13
 - Create Documents.
 - Open, save documents.
 - Print documents.
 - Cut Copy Paste
 - Mail merge
 - Representing Data in Tabular form.
 - Inserting data from different sources.

Certification

Certificate in Computer Overview and Programming Structure and Methodology

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Working with MS Office 2013

Objective

Create documents, Analyze data and make presentations

Benefit

Create professional documents using Word, Analyze and manipulate data using Excel and create professional presentation using PowerPoint

Duration

60 hours

Examination

Paper	Title of the paper
Paper-1	Fundamental of Data with Data Tools
Paper-2	MS Office Fundamental

Course contents & Syllabus

Fundamental of Data with Data Tools – Paper 1

- Get introduced to IT Fundamentals and computer.
 - Recap of first semester.
- Work with MS Excel 2013
 - Worksheets and Workbook.
 - All functions.
 - Charts.
 - Pivot table.

MS Office Fundamental – Paper 2

- Work with MS Power Point 2013
 - Creating presentation.
 - Different views of slides.
 - Inserting clipart.
 - Animation in PowerPoint.
- Work with MS Outlook 2013

- Configure Outlook.
 - Managing mails in different folders.
 - Usage of Calendar.
 - Usage of meetings.
- Get introduced to Digital Lifestyle.
 - What is digital lifestyle?

Certification

Certificate in Working with MS Office 2013

Project

Project using Microsoft EXCEL 2013 and get presented using PowerPoint.

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Logic Building and Effective Problem Solving

Objective

The learner will be able to learn Logic Building and Effective Problem Solving

Benefit

The Learner will be able to create flowcharts and write pseudo codes.

Duration

70 hours

Paper	Title of the paper
Paper-1	Introduction of programming component
Paper-2	Data Management System

Course contents & Syllabus

Fundamental of Programming Part 1 – Paper 1

- Identify the input and output requirements of a computer problem
 - What is input?
 - What is output?
 - Diagrammatic representation of input and output.
- Explain programs and programming languages
 - What is a program?
 - What is a programming language?
 - Different types of languages.
- Identify the various tools for problem solving
 - Input box
 - Output box
 - Start
 - Terminator.
 - Decision Box.
 - Flow of data.
- Solve problems using flowcharts
 - Represent log of the different problems using Flowcharts.

- Represent decisions and repetitive processes in a flowchart
 - Iterative Data.
 - Loops.

Fundamental of Programming Part 2 – Paper 2

- Solve problems using a pseudo code
 - What is a Pseudo code?
 - Representation of logic using pseudo codes.
- Use variables and constants
 - What is a variable and constants?
 - What is memory allocation?
- Identify data types
 - Different Data Types
 - Integer, character, float, double , string.
- Identify operators
 - Arithmetic operators.
 - Logical operators.
 - Boolean operators.
- Perform the conditional execution
 - If else conditions.
 - When then

Certification

Certificate in Logic Building and Effective Problem Solving

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Information Systems and Common Business Processes

Objective

This program focuses on enterprise resource planning, sales and marketing and managing data using SQL

Benefit

This program imparts of information system and common Business Processes and Manage data using SQL

Duration

66 hours

Examination

Paper	Title of the paper
Paper-1	Introduction of programming component
Paper-2	Data Management System

Project:

Project using SQL data base

Course contents & Syllabus

Introduction of programming component – Paper 1

- Implement iterative processes
 - Loops.
 - While loop.
 - Do while Loop.
- Implement modular programming
 - Functions.
 - Batches.
 - Procedures.
- Work with arrays
 - What is an array?
 - What is the difference between variable and Array.

- Single dimensional Array
 - Double Dimensional Array.
 - Manipulate arrays using loops
- Understand Organization and their Business Processes
 - What is organization?
 - What are different business processes?
- Understand Information Systems
 - What is information Systems?
 - How to implement Information systems
- Identify the need of Enterprise Resource Planning
 - Resource Planning.
 - Enterprise resource planning.
- Manage Sales and Marketing Using Information Systems
 - What is sales and Marketing?
 - Why Sales and Marketing?
 - How to implement Sales and Marketing using Information systems.

Data Management System – Paper 2

- Manage Production Using Information Systems
- Manage Logistics Using Information Systems
- Learn about Human Resource Management Using Information Systems
 - What is Human Resource?
 - What are the different Job roles of Human Resource?
 - How we can manage Human Resources using Information Systems.
- Manage Financial Accounting Using Information Systems
 - Idea of Financial Accounting?
 - Different tools in Information
- Create Financial Statements.
 - Trading Account.
 - Profit and loss Account.
 - Balance sheet.
 - Cash flow statement.
- Manage The Supply Chain Using Information Systems
 - Subsidiary books.
- Learn about Data Models
 - What is a Data Models.
 - Different types of Data Models.
- Create Database Design
 - What is a database?
 - Create database.
 - Manage database.
- Normalize and De-normalize Data
 - What is normalization?
 - Why to normalize data?
 - Different forms of Normal Form.
- Manipulate Data in Tables
 - What is a table?
 - What is tuple?
 - What is a field?
- Implement Indexes, Views, and Full-Text Search
 - What is an Index.

- Why we need indexing.
 - Different types of Indexes.
 - Full-Text Search.
 - Why Views.
- Implement Stored Procedures and Functions
 - Stored procedures.
 - Stored procedures with input parameters.
 - Stored procedures with Output Parameters.
 - Functions
 - Difference between function and stored procedure.
- Work with Triggers and Transactions
 - Triggers.
 - Different types of Triggers.
 - Insert, update and delete Trigger.
- Monitor and Optimize Performance

Certification

Certificate in Information Systems and Common Business Processes

Project

Project using SQL data base

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in JAVA 7

Objective

The objective of this course is to familiarize students with the knowledge of object oriented programming language using Java

Benefit

Create object-oriented applications using Java. The Programming in Java course is mapped with Oracle Certified Professional, Java SE 7

Duration

77 hours

Examination

Paper	Title of the paper
Paper-1	Fundamental of Java
Paper-2	Data Structure with Java and Concurrency API

Course contents & Syllabus

Fundamental of Java – Paper 1

- Get overview of Java
 - Java Programs Are Platform-Independent
 - Java SE Platform Versions
 - The Java Community, Open jdk
 - Class Structure , A Simple Class , Code Blocks , Primitive Data Types
 - Java SE 7 Numeric and Binary Literals
 - Strings and String operation , if-else
- Implement Operators
 - Logical Operators , Relational Operator, Arithmetic Operator
- Work with Conditional and Loop Constructs
 - Loop , for loop , while , do- while
 - Arrays and for-each Loop
 - String switch Statement
 - Class and Object, Method, Constructor , Creating an Instance of an Object
 - package Statement , import Statement
- Work with Arrays, Enums, and Strings
- Implement Inheritance and Polymorphism
 - Define Inheritance and Types of Inheritance
 - Abstract Class and Interface
 - Compile-time and Run-time Polymorphism
- Handle Errors and Events

- Exception Categories , Exception Handling
 - The try-catch Statement , finally clause
 - Declaring and Throwing Exceptions
 - Layout Manager and Event Handling
- Work with Streams
 - Data Within Streams
 - Byte Stream Input Stream and Output Stream Methods
 - Character Stream Reader and StreamWriterMethods
 - Processing Streams
 - Writing to Standard Output , Reading from Standard Input , Channel IO
 - Persistence , Serialization and Object Graphs , Transient Fields and Objects
- Work with NIO Classes and Interfaces
 - New File I/O API (NIO.2) , Limitations of java.io.File , File Systems, Paths, Files
 - Relative Path Versus Absolute Path , Java NIO.2 Concepts
 - Path Interface
 - Removing Redundancies from a Path
 - Creating a Subpath , Joining Two Paths , Creating a Path Between Two Paths

Data Structure with Java and Concurrency API – Paper 2

- Get Introduced to JDBC
 - Using a Vendor's Driver Class
 - Create Applications Using Advanced Features of JDBC
 - Using a ResultSet Object , Controlling ResultSet Fetch Size
 - ResultSetMetaData
 - Using PreparedStatement , Using CallableStatement
- Apply Inner Classes and Type Casting
 - Anonymous Inner Classes
 - Nested Classes
 - Autoboxing and Autounboxing
- Work with Regular Expression and Localization
 - Pattern and Matcher
 - Character Classes , Predefined Character Classes
 - Quantifiers , Greediness , Boundary Matcher
 - Why Localize?
 - Locale , Resource Bundle , Resource Bundle File , Date and Currency
- Work with Generics
 - Simple Cache Class Without Generics
 - Generic Cache Class , Generics in Action , Generics with Type Inference Diamond
- Work with Collections
 - Collection Types , List Interface
 - ArrayList Implementation Class , ArrayList Without Generics
 - Set Interface and classes
 - Map Interface and classes
- Work with Threads
 - The Thread Class , Extending Thread , Starting a Thread
 - Implementing and executing Runnable
- Implement Thread Synchronization and Concurrency
 - The java.util.concurrent Package
 - The java.util.concurrent.atomic Package
 - The java.util.concurrent.locks Package

Certification:Certificate in JAVA 7

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Professional skills

Objective

This course will enable student to; enhance their Interview handling skills, identify and develop knowledge and skills

Benefit

Professional skills also include learning every aspect of a job and doing it to the best of one's ability

Business writing skills and ability to provide data in standard formats is a key skill, employers look for.

Duration

68 hours

Examination

Paper	Title of the paper
Paper-1	Professional Skill Development Part 1
Paper-2	Professional Skill Development Part 2

Project

Project using Core JAVA

Course contents & Syllabus

Professional Skill Development Part 1 – Paper 1

- Effective Conversation.
 - Identify the importance of conversation in communication
 - Explain the stages in a conversation
 - Identify the constituents of a good conversation
 - Understand the techniques to improve conversation
 - Identify common errors in speech
 - Practice conversational skills through role play
- Assertive Communication
 - Assess your assertive communication skills
 - Identify the features of assertive communication

Certificate Course in MS-Office

Value Added Certificate Course In MS-Office

Courses List: MS-Office

Microsoft Office including MS Excel, MS Word, MS PowerPoint and Outlook etc. are used by individuals both in their personal and professional sphere. In fact, knowledge of Microsoft usage is one of the basic requirements for most of the job profiles. Be it accounting, business analysis, marketing or coding, you need to have adequate awareness of Microsoft programs.

Almost all of us are familiar with Microsoft functions. We use MS Excel and MS Word on Day to Day basis. But it is majorly confined to typing letters, changing fonts and formats, creating a table and few other basic functions. Besides that, we might not know how different formulas can be used for sorting a table or formatting one and so on. In order to improve our skills and qualify as a skilled Microsoft expertise, there are different MS certification programs. These credentials validate our skills and expertise in using Microsoft tools and functions.

Microsoft is not just used by individuals but is also very important for companies as well. Therefore, most of the companies value Microsoft certification and consider certified professionals over the non-credential peers. Below are 5 of the benefits for you to choose Microsoft certification.

MS Word

- Module 1:** Advanced Formatting
- Module 2:** Working with Tables
- Module 3:** Working with Images
- Module 4:** Page Layout
- Module 5:** Working with Illustrations
- Module 6:** Viewing Your Documents
- Module 7:** New Features Since 2013

MS- PowerPoint

- Module 1:** Customizing Presentations
- Module 2:** Presentation Masters
- Module 3:** Working with Special Effects
- Module 4:** Using SmartArt
- Module 5:** Multimedia
- Module 6:** Setting Up the Slide Show
- Module 7:** Outlines and Slides
- Module 8:** Managing Multiple Presentations
- Module 9:** Sharing and Securing a Presentation
- Module 10:** Features New since PowerPoint 2013

Website – www.ssdntech.com, Email – prabodh.k@ssdntech.com

Module 11: New Features in PowerPoint 2016
Module 12: Cloud

MS-Outlook

Module 1: Working with Tasks and Notes
Module 2: Using Signature and Themes
Module 3: Managing Your Inbox
Module 4: Working with Multiple Email Accounts
Module 5: New Features in Outlook 2016

Excel

Module 1: Create and Manage Worksheets, Workbooks
Module 2: Create Cells and Ranges
Module 3: Create Table
Module 4: Apply Formulas and Functions
Module 5: Create Charts and Objects

Advance Excel

Module 1: Using Pivot Tables
Module 2: Auditing Worksheets
Module 3: Data Tools
Module 4: Working with Others

About:

- ✓ Course: MS-Word, Power Point, Outlook, Excel, Advance Excel
- ✓ Length: 32 Hours
- ✓ Language: English
- ✓ Training Content: Standard

Outcomes:

Saves you a lot of Time

If you are a small entrepreneur or a freelance employee, advanced training in Microsoft can help you save a lot of time. Organizing and analyzing data properly with basic excel skills requires a lot of time, but if you are aware of all the complex functions and technique of Microsoft excel then you can do the same task in a very short period of time. Training of advanced excel in this way can prove to be very productive for your business and your career because in today's business world time means everything.

Website – www.ssdntech.com, Email – prabodh.k@ssdntech.com

Enhance your Knowledge and Management Skills

Advanced training in Microsoft not only means you become a Microsoft expert but it also enhances your knowledge and management skills.

Ability to collate data together

Data in today's world really means something. In order to support your view or idea, you need adequate data to put forward. In such situations, MS Excel is one of the best programs to rely on. This application can be used for extensive formatting and data collation. You can bring different files together and sort data.

Flexibility of work

Microsoft program being available online is a generation next big thing. You can share your work with business leaders and stakeholders through online from anywhere. This makes work more flexible and your ability to function MS programs easily make you a star leader at work.

Better career prospects

Besides making your office work easy and effective, Microsoft certification also opens up greater career prospects for you. You can vouch for challenging leadership and analytical roles with your MS credential. You can demand for salary hike and better positions with your expertise to fluently use the Microsoft program towards better business and success. Also, in many instances this credential is a must to get a job.

Certificate Course in Digital Marketing

Value Added Certificate Course In Digital Marketing

Course Name: Digital Marketing

Course Details: As the Digital Marketing landscape continues to grow at a rapid pace, marketers are faced with new challenges and opportunities within this digital age. This course is an initiative designed to educate students in the area of Digital Marketing. Students that plan to undertake the Google Online Marketing Challenge are encouraged to complete the Digital Marketing Course, as the skills learned in this course will help shape your advertising goals and strategy for the Google Online Marketing Challenge.

- INTRODUCTION DIGITAL MARKETING
- WEBSITE OVERVIEW
- SEARCH ENGINE OPTIMIZATION (SEO)
- SOCIAL MEDIA OPTIMIZATION (SMO)
- SOCIAL MEDIA MARKETING (SMM)
- EMAIL MARKETING
- MOBILE MARKETING
- GOOGLE ANALYTICS
- E-COMMERCE MARKETING
- GOOGLE AD WORD (PPC)
- SPECIAL MODULES

About:

- ✓ **Course:** Digital Marketing
- ✓ **Length:** 32 Hours
- ✓ **Language:** English
- ✓ **Training Content:** Standard

Pre-requisites:

No qualifications are needed to gain this knowledge as it is designed for anyone who either works with computers or deals with personal administration online.

SSDN Technologies, M-44 & M-50, Sec-14, Gurgaon -122001, Contact: 9549178444
Website – www.ssdntech.com, Email – prabodh.k@ssdntech.com

Outcomes:

Global Reach - A website allows you to find new markets and trade globally for only a small investment.

Lower Cost - A properly planned and effectively targeted digital marketing campaign can reach the right customers at a much lower cost than traditional marketing methods.

Trackable, Measurable Results - Measuring your online marketing with web analytics and other online metric tools makes it easier to establish how effective your campaign has been. You can obtain detailed information about how customers use your website or respond to your advertising. Web analytics can be set up to show you exactly how much money you make from each digital tactic.

Personalisation - If your customer database is linked to your website, then whenever someone visits the site, you can greet them with targeted offers. The more they buy from you, the more you can refine your customer profile and market effectively to them.

Openness - By getting involved with social media and managing it carefully, you can build customer loyalty and create a reputation for being easy to engage with.

Social Currency - Digital marketing lets you create engaging campaigns using different types of rich media content. On the internet these campaigns can gain social currency - being passed from user to user and becoming viral.

Improved Conversion Rates - If you have a website, then your customers are only ever a few clicks away from completing a purchase. Unlike other media which require people to get up and make a phone call, or go to a shop, Digital Marketing can be seamless and immediate.

(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Tally with GST

S.N	Topics
1	Introduction of Accounting, definition, Single Entry or Double Entry system, Accounting cycle, Book Keeping.
2	Accounting equations, types of accounts, rules of Accounting, Accounting standards.
3	Accounting concepts & conventions, phases of Accounting: Journal
4	Ledger Posting
5	Trial Balance
6	Preparation of Cash book, Subsidiary books.
7	Trading and Profit & Loss Account
8	Balance Sheet
9	Practical problems of Final Accounts (related to Proprietorship)
10	Practical problems of Final Accounts (related to NPO)
11	Doubt Class and Class Test
12	Test Discussion and Introduction of Tally: Company Creation
13	Company creation; creating, selecting, deleting, shutting a company, altering company details
14	Creation of user defined primary groups,display- alteration of groups-Ledger Accounts-
15	Tally vouchers-Meaning- Payment Vouchers-Receipt vouchers-entering, deleting, cancelling, printing avoucher- Post-dated vouchers
16	Practice
17	Practical Test of Voucher Entries
18	Sales and Purchase Entries
19	Receivables and Payablemanagement- Meaning-activating bill wise details-sales entries, purchasesentries, Purchases Returns, Sales returns Receipt,payment entries- Display and printing of outstandingprinting reminder letters- printing confirmation.
20	Creation ofBudgets, Group Budgets, Budget ledgers, Alteration ofBudgets-deletion of budgets.
21	Practice

22 TDS: Meaning, TDS- ledger creation- voucher entry-Payment entry,

S.No	Topics
23	TDS Computation-TDS Report
24	Introduction to GST: meaning, concept, rates under GST Act
25	Statutory & Taxation Details of Company, GST Registration of Company
26	Concept & Entries of CGST, SGST & IGST
27	Practice
28	Practical Test of GST Entries
28	GST reports under GST Act, GSTR1, GSTR2, GSTR 3B
30	Procedure of Input Tax Credit, Creation of GST Challan
31	Point of sale, Point of Supply, Invoicing
32	Excel Table & Balance Sheets, Salary Chart, Total Per, Practice Of Excel
33	Class Test
34	PPT on GST meaning, concept, types and rates
35	Bank Reconciliation and export of various reports from Tally to Excel
36	Analysis of reports
37	Practice Class
38	Preparation of Resume for Mock Interview
39	Practice Class
40	Practice Class
41	Practice Class
42	Doubt Class
43	Final Test
44	Online GST Registration Procedure

NAAC Accredited 'A' Grade (CGPA: 3.40)

Certificate Course in Abacus Trainer Training Program (ATT)

Registered under R. P. Skill & Education Development Trust

IIVA Abacus Contents

Part - 1

1	Introduction
2	History of Abacus
3	Benefits of Abacus
4	Abacus Finger Counting
5	Value of Beads
6	Addition and Subtraction Single Digit (Without Complements)
7	Visualization of Single Digit (Without Complements)
8	Addition and Subtraction Single Digit (5's Complements)
9	Visualization of Single Digit (5's Complements)
10	Addition and Subtraction Single Digit (10's Complements)
11	Visualization of Single Digit (10's Complements)
12	Addition and Subtraction Single Digit (Mixed Complements)
13	Visualization of Single Digit (Mixed Complements)
14	Addition and Subtraction Double Digits (Without Complements)
15	Visualization of Double Digits (Without Complements)
16	Big Complements
17	Addition and Subtraction Double Digits (5's Complements)
18	Visualization of Double Digits (5's Complements)
19	Addition and Subtraction Double Digits (10's Complements)
20	Visualization of Double Digits (10's Complements)
21	Addition and Subtraction Double Digits (Mixed Complements)
22	Visualization of Double Digits (Mixed Complements)
23	Addition and Subtraction Double Digits (Big Complements)
24	Fingering Speed
25	Addition and Subtraction 3 digits
26	Visualization of Addition and Subtraction 3 Digits
27	Introduction of Tables, Through Addition
28	Multiplication S.D. x S.D.
29	Multiplication S.D. x D.D.
30	Visualization of Multiplication S.D. x 2.D.

Office : 308, GD ITL Tower B-8, Netaji Subhash Place, Pitampura, New Delhi-110034

Part - 3

1	Division $4D \div SD$
2	Division $3D \div DD$
3	Division $4D \div DD$
4	Addition and Subtraction of Decimals (2, 3, 4 digit numbers)
5	Decimal Multiplication where multiplicand is a decimal number and multiplier is a whole number
6	Decimal multiplication where both multiplier and multiplicand are decimal numbers
7	Division
8	Division of two whole numbers by SD Divisor (where quotient is a decimal number)
9	Division of whole numbers by DD divisor (where quotient is decimal number)
10	Division of whole numbers by TD Divisor (where quotient is decimal number)
11	Division (When dividend is decimal number & divisor is whole number)
12	Division (When both divisor and dividend are decimal numbers)
13	Visual - Decimal Add/ sub, Decimal Multiplication, Decimal Division

1)	Introduction of Vedic Maths
2)	History of Vedic Maths
3)	Benefits of Vedic Maths
4)	Sutras
5)	Sub-Sutras
6)	Sutras and their explanation
7)	Multiplication by 11 and multiples of 11 (Sub Sutra Ānurūpyeṇa)
8)	Multiplication by 12 to 19 (Sutra Sopāntyadvayamantyam)
9)	Multiplication by 111
10)	Multiplication by 222 to 999
11)	Base Method Multiplication (Sutra Nikhilam Navataścaramam Daśataḥ and Sub Sutra Ānurūpyeṇa)
	(a) Below Base 10
	(b) Below Base 20-90
	(c) Below Base 100
	(d) Below Base 200-900
	(e) Above Base 10
	(f) Above Base 20-90
	(g) Above Base 100
	(h) Above Base 200-900
	(i) Base method when one number is above & other is below the same base
	(j) When Bases are different but both numbers are below base
	(k) When Bases are different but both numbers are above base
12)	If the sum of units digits is 10 and rest place digits are same (Sub Sutra Antyayordaśake'pi)
13)	If the sum of tens place digits is 10 and ones place digits are same
14)	Multiplication by 9
15)	Multiplication by Number Ending with 9 i.e. 19- 99

MAHARSHI DAYANAND UNIVERSITY ROHTAK
SYLLABUS OF WEB DESIGNING AND OFFICE AUTOMATION

(1st Year) Certificate Course in Web Designing and Office Automation
Paper-I Internet Technologies (Paper Code: WDOA-101)

Max. Marks: 100

Time: 3 hrs.

1. Introduction to Internet: Definition and Evolution of Internet, Hardware and Software requirements of Internet, Working of Internet, Major Features of Internet, Accessing the Internet, Search Engines, Major Application Areas of Internet.
2. Introduction to Internet protocols: Concepts of TCP/IP Interney addressing, How to get into Internet, Modem, Browsers and Internet Service Provisions.
3. Internet Services: File Transfer protocol, Opening a Connection with a FTP Server, Transfer Files to My Computer, Remote Login, bulletin Boards and News Groups.
4. E-Mail: Objectives of e-mail, Logging into an E-Mail Attachments of e-mail, User names and Passwords, Internet Chatting, surfing through the Internet.
5. World Wide Web: World Wide Web (WWW)- Domain Software, The Client side and the Server Side, Creating and Locating Information on the Web Search Engines, URL's.

Suggested Readings:

1. Essentials of Computer & Network Technology by Dr. Nasib Singh gill, Khanna Publication.
2. Application of information Technology in Business by Dr. Rajender Singh Chhillar, Ramesh Publisher, Jaipur
3. Internet & WWW- How to program by H.M. Daital, P.J. Daietal, T.R.Nieto, PHI
4. Any other book(s) covering syllabi in more depth.

Note: The Examiner will set 8 questions in all the candidates will have to attempt any five Questions. All questions will carry equal marks.

Paper-II PC Software (Paper Code: WDOA-102)

Max. Marks: 100

Time: 3 hrs.

1. **Introduction to Windows:** Windows Fundamental Features of Windows, Types of Windows and Elements of Windows, Customizing Windows, windows working in windows, working with files and folders, Icons, recycle Bin, control Panel, Windows Explorer.
2. **MS-Word:** Introduction to MS-Word, standard Toolbar Word Warp, Text formatting, Formatting paragraphs, Applying effects to text Applying animation to text.
3. **MS-Excel:** Introduction to MS-Excel, working with toolbars, Formatting Formulas, Data management, Graphics and Chart, Macros and other Additional functions.
4. **MS-Power Point:** Introduction, Power Point Slide, Creating a Slide –Show, Adding Graphics, Formatting, Customizing and printing slides.
5. **Ms-Access:** Introduction, Understanding database, creating database and tables through Wizard.

Suggested Readings:

1. Application of Information Technology in Business by Dr. Rajender Singh Chhillar, Ramesh Publisher, Jaipur
2. PC Software for Windows Made Simple by R.K.Taxali, Tata McGraw Hill.
3. Learning MS-Office 2000 by R.Bangia, Khanna Book Publishing Company.
4. Any other book(s) covering syllabi in more depth.

Note: The Examiner will set 8 questions in all. The candidates will have to attempt any five Questions. All questions will carry equal marks.

Paper-III Computer Practical-I (Paper Code: WDOA-103)

Max. Marks: 100

Time: 3 hrs.

Computer practical will be based on the syllabi of Paper Code : WDOA-101 and Paper Code: WDOA-102.

Lab: Working knowledge of Internet Services, MS Word, MS-Excel, MS-Power Point, MS- Access.

Note: Computer practical will be taken by an external examiner, appointed by the University.

CERTIFICATE COURSE IN COMPUTER HARDWARE AND MAINTENANCE
FROM THE SESSION 2015-16
(ADD-ON COURSE)

ELIGIBILITY FOR CERTIFICATE COURSE

Students at the under graduate level from Science Stream can opt for Certificate course.

Student can take Add-on Course only during graduation.

WORK LOAD & DISTRIBUTION OF MARKS

6. There will two theory papers of 100 marks each and one practical paper of 100 marks.
7. Each paper shall have 100 marks and out of 100 marks theory paper shall consist of 80 marks and internal assessment shall be 20 marks based upon Class participation, Attendance and assignments.
8. Practical marks will be on the basis of practical file and practical Exam and Viva Voce.
9. There shall be 6 lectures per subject per week.

Instructions for paper setters.

Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 8 parts (short-answer type questions) covering the entire syllabus and will carry 16 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 16 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Paper Code	Name	Max. Marks
CCHM-101	Analog System	100
CCHM-102	Computer Hardware	100
CCHM-103	Computer Practical-1	100

CERTIFICATE COURSE IN COMPUTER HARDWARE AND MAINTENANCE

CCHM-101: Analog System

External Marks: 80

Internal Marks: 20

Time: 3 hours

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 8 parts (Short-answer type questions) covering the entire syllabus and will carry 16 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 16 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Objective: This paper is aimed at providing students with a comprehensive understanding of the basic components used in the basic assembly and their functions.

Unit-I: Soldering: Step for soldering, Resistor and Resistor Connection, Precautions while using/Soldering Components, Current and Voltage, Ohm's Law, Voltage rise and Voltage drop.

Unit-II: Power, Bridge Circuit: Inductor & Capacitor, RC Time Constant, AC Fundamentals.

Unit-III: Rectifiers and Amplifiers: Half wave and Full wave rectifier, Zener Diode, Transistor & Transistor Testing, Transistor Amplifier, Operational Amplifier.

Unit-IV: Junction PET Characteristics: LED Characteristics, Photo Transistor Characteristics.

Suggested Readings

10. Modern Digital Electronics by R.P. Jain, Tata McGraw Hill
11. Integrated Electronics by Jacob Millman & Christas C. Halkias, Tata McGraw Hill
12. Electronic Device and Circuits-An introduction by Allen Mottershead, PHI
13. Electronic Devices and Circuits by J.B. Gupta, S.K. Kataria and Sons, Delhi
14. Any other book (s) covering syllabi in more depth

CCHM-102: Computer Hardware

External Marks: 80

Internal Marks: 20

Time: 3 hours

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 8 parts (Short-answer type questions) covering the entire syllabus and will carry 16 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 16 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Objective: This paper is aimed at providing students with a comprehensive understanding of the basic hardware in the computer and other devices

Unit-I: Basic Terminology of Computer: - Computer Fundamentals, Operating Systems, Application Software, GUI and CUI, Overview of some Application software

Unit –II: Basic Computer Hardware: - Different Hardware devices, Input Devices, Processing Devices, Output Devices, Working of input and output devices, Assembling.

Unit – III: Installation:- Installation of Operating Systems like Windows 7, Windows 8 etc., Installation of Several Application Software like MS- office, Introduction to Viruses: Virus definitions, Virus Detection, Prevention and, Antivirus Utilities, Study of antivirus Programmes, Installation of Various Devices and Drivers, Updating and Upgrading of System.

Unit- IV: Troubleshooting:- Maintenance of Computer, Problem Finding and Diagnosing it.

Precautions for smooth working of Computer

Suggested Readings:

6. Schaums Teach Yourself The Internet in 24 Hours by Net Shell, Tata Mc Graw Hill
7. Windows 98 by Michael Miller, Que Publications
8. Computer Fundamental by Bhanu Pratap, Cyber Tech Publications.
9. Computer Fundamental 3/e by P.K. Sinha, Prit Sinha, BPB Publication.
10. Computer Viruses by David Harley, Robert State, I.E. Gattika Dream Teach Publications.
11. Any other book(s) covering syllabi in more **depth**.

CCHM-103: Computer Practical-1

Max. Marks:
100

The students will prepare practical File and the computer practical will be based on the syllabi of Paper Code CCHM-101 and CCHM-102. The Practical exam and Viva Voce will be conducted by external examiner.

Paper-II

Computer Applications (Paper Code: HM -102)

Max. Marks:100

Time: 3hrs

7. **Introduction to DOS:** Data processing, DOS (Internal & External Commands, Batch files, Using the screen editor, Printing images, ASCII Files, Communicating with other devices, parallel vs Serial communication: Optimizing DOS, CONFIG SYS & AUTOEXEC BAT FILES, Freeing up memory at boot time, Managing Extended and Expanded memory, RAM disk, Disk Caching, Defragmentation, Creating a bootable floppy.
8. **Windows :** Preparing to install Windows, creating a bootable disk,
Installing a printer, Installation of Windows'98 Windows'XP and Windows'NT, Configuring the Task bar, Start button, Display, font, Memory, disks, Devices & Control Panel.
9. **Multimedia :** MIDI (Musical Instrument digital Interface), Data Compression, JPEG & MPEG Standards, Configuring the speakers, Troubleshooting, Attaching Sound Cards, Audio & Video Sound card, CD-ROM.
10. Introduction to Viruses: Virus definitions, Virus Detection, Prevention and, Antivirus Utilities, Study of antivirus Programmes.

Suggested Readings :

6. Schaums Teach Yourself The Internet in 24 Hours by Net Shell, Tata Mc Graw Hill
7. Windows 98 by Michael Miller, Que Publications
8. Computer Fundamental by Bhanu Pratap, Cyber Tech Publications.
10. Computer Fundamental 3/e by P.K. Sinha, Prit Sinha, BPB Publication.
11. Computer Viruses by David Harley, Robert State, I.E. Gattika Dream Teach Publications.
12. Any other book(s) covering syllabi in more depth.

Note: The examiner will set 8 question in all. The candidate will have attempt any five question. All questions were carry equal marks.

CERTIFICATE COURSE IN ACCOUNTANCY AND TAX PROCEDURE

(ADD-ON COURSE)

From the Session 2014-15

ELIGIBILITY FOR CERTIFICATE COURSE

Students at the under graduate level from Commerce Stream can opt for Certificate course.

Student can take Add-on Course only during graduation.

WORK LOAD & DISTRIBUTION OF MARKS

- 10.** There will two theory papers of 100 marks each and one practical paper of 100 marks.
- 11.** Each paper shall have 100 marks and out of 100 marks theory paper shall consist of 80 marks and internal assessment shall be 20 marks based upon Class participation, Attendance and assignments.
- 12.** Practical marks will be on the basis of practical exam and Viva Voce.
- 13.** There shall be 6 lectures per subject per week.

Instructions for paper setters.

Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 8 parts (short-answer type questions) covering the entire syllabus and will carry 16 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 16 marks. 16. Lal, B.B. Income Tax Law and Practice. Konark Publications, New Delhi.
17. Singhania, Vinod K. and KapilSinghania. Tax Computation on CD. Taxmann Publications Pvt. Ltd., New Delhi.

CATP- 103:Practical-I (Computerized Accounting and Taxation)

Max Marks 100

The students will prepare practical File and the practical will be based on the syllabi of Paper Code CATP-101 and CATP-102 using latest version of Tally. The Practical exam and Viva Voce will be conducted by external examiner.

CERTIFICATE COURSE IN RETAIL MARKETING (ADD-ON COURSE)

From the Session 2014-15

ELIGIBILITY FOR CERTIFICATE COURSE

Students at the under graduate level from Arts Stream can opt for Certificate course.
Student can take Add-on Course only during graduation.

WORK LOAD & DISTRIBUTION OF MARKS

- 14.** There will two theory papers of 100 marks each and one Project Report of 100 marks.
- 15.** Each paper shall have 100 marks and out of 100 marks theory paper shall consist of 80 marks and internal assessment shall be 20 marks based upon Class participation, Attendance and assignments.
- 16.** Marks for the Project Report will be on the basis of Project Report File and Viva Voce.
- 17.** There shall be 6 lectures per subject per week.

Instructions for paper setters.

Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 8 parts (short-answer type questions) covering the entire syllabus and will carry 16 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 16 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Paper Code	Name	External Marks	Internal Marks	Max. Marks
CCRM-101	RETAIL MANAGEMENT	80	20	100
CCRM-102	MARKETING MANAGEMENT	80	20	100
CCRM-103	PROJECT REPORT	100		100

CCRM-101: RETAIL MANAGEMENT

External Marks:
80

Internal Marks: 20

Time: 3
hours

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 8 parts (short-answer type questions) covering the entire syllabus and will carry 16 marks.

In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 16 marks.

Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Objective: This paper is aimed at providing students with a comprehensive understanding of the theoretical and applied aspects of retail management.

Unit I: Introduction: Meaning, Definition, Nature, Importance and Scope of Retailing, Growth, Size and Emerging Trends in Retailing Retail Scenario in India, Special characteristics, Retailing as a Career

Unit II: Retailers, Retailer's Classification on the basis of form of Ownership, Product Mix, Pricing and Service Level Offered; Retail Formats- Traditional versus Modern Retail Formats; Store based Retail Formats and Non Store Based Retail Formats; Franchising- the Emerging Retail Format

Unit III: Use of Technology in Retailing: E-retailing-major benefits of E-Retailing to Consumers and Retailers; Challenges of E-retailing and Future of E-retailing in India; Multi channel Retailing

Unit IV: Merchandising Management: - Planning Merchandise Assortment, Buying

Organization, Assortment Planning, Merchandise Buying system, Merchandise Budget Plan , Branding Strategy, Merchandise Pricing, Merchandise Loss and Prevention, Logistics Management

SUGGESTED READINGS:

21. Levy I.M. and Weitz B.A. (2004), Retailing Management, 5th ed., Tata McGraw Hill.

Max. Marks: 100

The students shall proceed for their training of three weeks duration during the course.

Note: Paper CCRM-103, Project Report, 50 Marks will be for Project Report File and 50 markswill be for Viva Voce to be conducted by External Examiner.

Diploma Courses

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Diploma Course in Computer Education (Level-II)

Paper- L 2-I : Spread Sheet and DBMS

Spread Sheet.

Elements of Electronics Spread Sheet and MS-Excel: Application/ usage of Electronic spread sheet, opening of spread sheet, Menu bar, Creation of cells and addressing of Cells, Cell inputting. Manipulation of Cells : Enter texts numbers and dates Creation of tables, cells height and widths, copying of cells.

Functions: Using mathematical, statistical and financial functions. Spread Sheets for Small

Accountings: Maintaining Invoices/ Budgets, Totalling of Various Transactions, Maintaining daily and monthly sales reports. Charts: drawing different types of charts.

Database Management System (DBMS)

Introduction to Database: Definition, Components, Advantages.

MS-Access: Introduction, Starting MS-Access, Creating a database file, saving a database files, opening a database file, closing a database file, using the help menu.

Working with Databases: Using the database wizard, working with datasheets, moving between records and files, Using go to, Updating records, Selecting rows and columns, changing column width, saving and existing a datasheet.

Working with tables -Creating a new database, Adding tables to database, Adding fields to tables, inserting a field setting a primary key, Adding and sorting records, setting relationships.

Creating reports, Forms and Queries, Using wizard and design view.

Software Lab

Spread Sheet: MS-Excel

1. Compute the division of each and every student of a class.
2. Generation of Electricity Bill.
3. Generation of Telephone Bill.
4. Generation of salary statement of an employee.
5. Generation of Mark Sheet of a student.

6. To compute Mean / Median/ Mode.
7. Generate graph to show the production of goods in a company during the last five years.
8. Compare the cost, overheads and sales figures of a company for last three years through appropriate chart.
9. Create any worksheet and apply various mathematical statistical and financial functions.
10. Generate the following worksheet.

Roll No.	Marks
2050	67
2051	49
2052	40
2053	74
2054	61
2055	57
2056	45

Do the following:-

- a. Create chart of the marks
- b. Compute sum of marks using auto sum auto calculate and sum function.
- c. Compute average of marks.
- d. Show pass or fail if marks are above 50 or less than 50
- e. Put header and footer in the spread sheet.

MS-Access

1. Create a Student Database in Design View by using Wizard and by entering data.
2. Create Query on Student Database in Design View and by using Wizard.
3. Create Forms of Student Database in Design View and by using Wizard.
4. Create Reports of Student Database in Design View and by using Wizard.
5. Create Data Access pages of student database in Design View and by using Wizard.
6. Implement the concept of Macros in MS Access.

Paper-L2-II : (Desktop Publishing)

Adobe Photoshop

Using standard toolbox option bars, palettes, document window view area use of plug ins, brushes, defining and customizing images, canvas, rotation of images creating new images, mixing changing attributes, colours, distorting images, applying filters to images and web based picture designing.

Adobe PageMaker

Toolbox, control palette, colours palette, paragraph view, styles, layers master layers scripts, command reference, opening and creation of publications, tool box, viewing pages, deleting pages,

default preferences, templates, master pages guides, grids , text objects, columns balancing jump lines, story and layout view, composition and tracking, grouping and ungrouping, cropping and copying of images, text, indexes and table of contents using table in PageMaker importing and exporting links image setter and film preparation, font substitution and printing of publications.

Software Lab

Adobe Photoshop

1. Editing of a photograph
2. Finishing of a photograph
3. Borders around photograph.
4. Changing Back Ground of a photograph.
5. Changing colours of photograph.
6. Editing colours combination of image.
7. Removing side effects from figure
8. Printing a photograph
9. Creating 3-D photographs.
10. Removing red eye effects and others using Photoshop

Adobe PageMaker

1. Prepare any visiting card.
2. Make a Marriage card.
3. Prepare various types of greeting cards such as 'B' Day Cards, New Year Cards Diwali Cards etc.
4. Make Advertisements for Newspapers.
5. Prepare Banners.
6. Making of Posters.

Computer Fundamentals and Programming in 'C'

BVSD-101
Time: 3Hrs

External Marks: 60
Internal Marks: 40

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Unit-I

Computer Fundamentals: Concept of data and information; Components of Computer: Hardware Input Device, Output Device. CPU: Components of CPU; Memory and Storage Devices; Computer Software: System Software and Application Software; Functions of Operating System. Programming Languages: Machine, Assembly, High Level Language, 4GL; Language Translator; Linker, Loader; Classification of Computers: Micro, Mini, Mainframe, Super computer. Advantages of Computer, Limitations of Computer, Range of Applications of Computer, Social concerns of Computer Technology: Positive and Negative Impacts, Computer Crimes, Viruses and their remedial solutions.

Unit-II

Problem Solving: pseudocode, Problem Identification, Analysis, Flowcharts, Decision Tables, Pseudo codes and algorithms, Program Coding, Program Testing and Execution. C Programming Fundamentals: Keywords, Variables and Constants, Structure of a C program. Operators & Expressions: Arithmetic, Unary, Logical, Bit-wise, Assignment & Conditional Operators, Library Functions, Control Statements: Looping using while, do...while, for statements, Nested loops; decision making using if...else, Else If Ladder; Switch, break, Continue and Goto statements.

Unit-III

Arrays & Functions: Declaration and Initialization; Multidimensional Arrays. String: Operations of Strings; Functions: Defining & Accessing User defined functions, Function Prototype, Passing Arguments, Passing array as argument, Recursion, Use of Library Functions; Macro vs. Functions. Pointers: Declarations, Operations on Pointers, Passing to a function, Pointers & Arrays, Array of Pointers, Array accessing through pointers, Pointer to functions, Function returning pointers, Dynamic Memory Allocations.

Unit-IV

Structures and Union: Defining and Initializing Structure, Array within Structure, Array of Structure, Nesting of Structure, Pointer to Structure, Passing structure and its pointer to Functions; Unions: Introduction to Unions and its Utilities. Files Handling: Opening and closing file in C; Create, Read and Write data to a file; Modes of Files, Operations on file using C Library Functions; Working with Command Line Arguments. Program Debugging and types of errors.

6. Rajender Singh Chhillar: Application of IT to Business, Ramesh Publishers, Jaipur.
7. Cooper, Mullish :The spirit of C, An Introduction to Modern Programming, Jaico Publ. House, New Delhi.
8. Kerninghan& Ritchie: The C Programming Language, PHI.
9. Gottfried, B.: Theory and problems of Programming in C, Schaum Series.
10. E. Balaguruswamy: Programming in C, Tata McGraw Hill.
11. H. Schildt: C-The Complete Reference, Tata McGraw Hill.
12. Y. Kanetkar: Let us C, BPB Publication Note: Latest and additional good books may be suggested and added from time to time.

BVSD-102: PC Software

External Marks: 60

Internal Marks: 40

Time: 3 hours

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit- IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

UNIT - I

Operating system-Definition & functions, Concept of Multi Programming, Multitasking, Multithreading, Multiprocessing, Timesharing, Real time, Types of Operating System.

MS-Windows Basic components of windows, icons, types of icons, taskbar, activating windows, using desktop, title bar, running applications, exploring computer, managing files and folders, copying and moving files and folders. Control panel – display properties, adding and removing software and hardware, setting date and time, screensaver and appearance using windows accessories.

UNIT - II

Documentation Using MS-Word - Introduction to word processing interface, Toolbars, Menus, Creating & Editing Document, Formatting Document, Finding and replacing text, Format painter, Header and footer, Drop cap, Auto-text, Autocorrect, Spelling and Grammar Tool, Document Dictionary, Page Formatting, Bookmark, Previewing and printing document, Advance Features of MS-Word-Mail Merge, Macros, Tables, File Management, Printing, Styles, linking and embedding object, Template.

UNIT - III

Electronic Spread Sheet using MS-Excel - Introduction to MS-Excel, Cell, cell address, Creating & Editing Worksheet, Formatting and Essential Operations, Moving and copying data in excel, Header and footer, Formulas and Functions, Charts, Cell referencing, Page setup, Macros, Advance features of MS-Excel-Pivot table & Pivot Chart, Linking and Consolidation, Database Management using Excel-Sorting, Filtering, Validation, What if analysis with Goal Seek, Conditional formatting, Collaborating with Other Users, Analyzing and Presenting Complex data.

UNIT - IV

Presentation using MS-PowerPoint: Presentations, Creating, Manipulating & Enhancing Slides, Organizational Charts, Excel Charts, Word Art, Layering art Objects, Animations and Sounds, Inserting Animated Pictures or Accessing through Object, Inserting Recorded Sound Effect or In-Built Sound Effect., Introduction to MS Access: creating database creating and manipulating tables, forms, queries, reports, modules, importing and exporting of data. Overview of MS Outlook.

Note: Latest and additional good books may be suggested and added from time to time.

BVSD-103:

Communication Skills

Time: 3 hours

External Marks: 60

Internal Marks: 40

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit- IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

UNIT-I

Introduction to Basics of Communication: Communication and its various definitions, features/characteristics of the communication, process of communication, communication model and theories, barrier to effective communication. Importance of working in Teams, Apply effective conversation skills, practice assertive communication skills.

UNIT-II

Improving LSRW: introduction, verbal and nonverbal communication, listening process, group discussion, forms of oral presentation, self-presentation, dyadic communication, 5C_s of communication, Developing dialogues, soft skill.

UNIT-III

Basic vocabulary: how to improve vocabulary, prefix/suffix, synonyms/antonyms, one word substitution, spellings Developing fluency: Grammar (conjunction, auxiliaries, prepositions, articles, tenses.....), language games.

Proper use of Language: The Communication Skills, The effective Speech. Effective self-presentation & facing interview: The interview process & preparing for it, The presentation skills.

UNIT-IV

SWOT and Self Awareness, Effective business writing skills, Identify and apply business ethics, Apply Critical thinking and problem solving skills, Identify the importance of planning and prioritizing tasks.

5. Raman, Singh – Business communication – Oxford Press

Note: Latest and additional good books may be suggested and added from time to time.

BVSD-104: Software Lab- I

**External Marks: 60
Internal Marks: 40**

Based on paper BVSD-101

Note: Paper BVSD -104 Practical ('C' Language) for External Marks 60 will be conducted by External Examiner appointed by University.

BVSD-105: Software Lab- II

**External Marks: 60
Internal Marks: 40**

Based on paper BVSD-102

Note: Paper BVSD -105, Practical (Ms-Office) for External Marks 60 will be conducted by External Examiner appointed by University.

BVSD-106: Data Structure through 'C'

Time: 3 hours

External Marks: 60

Internal Marks: 40

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit- IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Unit-I

Introduction: Elementary data organization, Data Structure definition, Data type vs. data structure, Categories of data structures, Data structure operations, Applications of data structures, Algorithms complexity and time-space tradeoff, Big-O notation. Strings: Introduction, Storing strings, String operations, Pattern matching algorithms. Arrays: Introduction, Linear arrays, Representation of linear array in memory Multidimensional arrays, Operations in Arrays, Sparse arrays. Linked List: Introduction, Array vs. linked list, Representation of linked lists in memory, Traversal, Insertion, Deletion, Searching in a linked list, Header linked list, Circular linked list, Two-way linked list, Threaded lists, Garbage collection, Applications of linked lists.

UNIT – II

Stack: Introduction, Array and linked representation of stacks, Operations on stacks, Applications of stacks: Polish notation, Recursion. Queues: Introduction, Array and linked representation of queues, Operations on queues, Deques, Priority Queues, Applications of queues. Tree: Introduction, Definition, Representing Binary tree in memory, Traversing binary trees, Traversal algorithms using stacks Tree: Header nodes, Threads, Binary search trees, Searching, Insertion and deletion in a Binary search tree, AVL search trees, Insertion and deletion in AVL search tree. B-trees, Searching, Insertion and deletion in a B-tree, B+tree, Huffman's algorithm, General trees.

UNIT – III

Graph: Introduction, Graph theory terminology, Sequential and linked representation of graphs.

Graphs: Warshall's algorithm for shortest path, Dijkstra algorithm for shortest path, Operations on graphs, Traversal of graph, Sorting: Internal & external sorting, Radix sort, Quick sort, Heap sort, Merge sort, Tournament sort, Searching: Linear search, binary search, merging, Comparison of various sorting and searching algorithms on the basis of their complexity.

UNIT – IV

Files: Physical storage devices and their characteristics, Attributes of a file viz fields, records, Fixed and variable length records, Primary and secondary keys, Classification of files, File operations, Comparison of various types of files, File organization: Serial, Sequential, Indexed-sequential, Random-access/Direct, Inverted, Multilist file organization. Hashing: Introduction, Hashing functions and Collision resolution methods .

SUGGESTED READINGS

2. Horowitz, Sahni& Anderson-Freed, -Fundamentals of Data Structures in Cll,Orientlongman.
3. Trembley, J.P. And Sorenson P.G., -An Introduction to Data Structures With Applicationsll, Mcgrraw- Hill International Student Edition, New York.
4. Mark Allen Weiss, -Data Structures and Algorithm Analysis in Cll, Addison- Wesley, (An Imprint Of Pearson Education), Mexico City.Prentice- Hall Of India Pvt.Ltd.,New Delhi.

Note: Latest and additional good books may be suggested and added from time to time.

BVSD-107: Object Oriented Programming using C++

Time: 3 hours

External Marks: 60

Internal Marks: 40

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit- IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

UNIT-I

Introduction to C++ - key concepts of Object-Oriented Programming –Advantages – Object Oriented Languages – I/O in C++ - C++ Declarations. Control Structures : - Decision Making and Statements : If .. else ,jump, goto, break, continue, Switch case statements - Loops in C++ : For,While, Do - Functions in C++ - Inline functions – Function Overloading.

UNIT-II

Classes and Objects : Declaring Objects – Defining Member Functions – Static Member variables and functions – array of objects –friend functions – Overloading member functions – BVSD fields and classes – Constructor and destructor with static members.

UNIT-III

Operator Overloading: Overloading unary, binary operators – Overloading Friend functions – type conversion – Inheritance: Types of Inheritance – Single, Multilevel, Multiple, Hierarchical, Hybrid, Multi path inheritance – Virtual base Classes – Abstract Classes.

UNIT-IV

Pointers – Declaration – Pointer to Class , Object – this pointer – Pointers to derived classes and Base classes – Arrays – Characteristics – array of classes – Memory models – new and delete operators – dynamic object – Binding , Polymorphism and Virtual Functions. Files – File stream classes – file modes – Sequential Read / Write operations – Binary and ASCII Files – Random Access Operation – Templates – Exception Handling, File Input and output, String – Declaring and Initializing string objects – String Attributes – Miscellaneous functions .

SUGGESTED READINGS

2. E. Balagurusamy, OBJECT-ORIENTED PROGRAMMING WITH C++, Tata McGrawhillPublication, 1998.
3. Maria Litvin&GrayLitvin , C++ for you, Vikas publication, 4002.
4. John R Hubbard, Programming with C, 2nd Edition, TMH publication, 4002.

Note: Latest and additional good books may be suggested and added from time to time.

BVSD-108: Environmental Science

External Marks: 60

Internal Marks: 40

Time: 3 hours

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit- IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

UNIT-I

Environmental studies – Nature, scope and importance, need for public awareness; natural resources – renewable and non-renewable resources, use and overexploitation/ over-utilization of various resources and consequences; role of an individual in conservation of natural resources; equitable use of resources for sustainable lifestyles

UNIT-II

Ecosystems – concept, structure and function of an ecosystem; energy flow in the ecosystem; ecological succession; food chains, food webs and ecological pyramids; types of ecosystem – forest ecosystem, grassland ecosystem, desert ecosystem, aquatic. Environmental Pollution – Definition, cause, effects and control measures of different types of pollutions – air pollution, water pollution, soil pollution, marine pollution, noise pollution, thermal pollution, nuclear hazards; solid waste management – causes, effects and control measures of urban and industrial wastes; role of an individual in prevention of pollution

UNIT-III

Social issues and the environment – Sustainable development, urban problems related to energy, water conservation, rain water harvesting, watershed management; resettlement and rehabilitation of people, its problems and concerns; climate change, global warming, acid rain, ozone layer depletion, nuclear accidents and holocaust; Wasteland reclamation, consumerism and waste products

UNIT-IV

Environmental legislation – Environment Protection Act, Air (prevention and control of pollution) Act, Water (prevention and control of pollution) Act, Wildlife Protection Act, Forest Conservation Act

Note: Latest and additional good books may be suggested and added from time to time

BVSD-109: Software Lab-III

**External Marks: 60
Internal Marks: 40**

Based on paper BVSD-106

Note: Paper BVSD -109 Practical (**Data Structure Through 'C'**)for External Marks 60 will be conducted by External Examiner appointed by University.

BVSD-110: Software Lab-IV

**External Marks: 60
Internal Marks: 40**

Based on paper BVSD-107

Note: Paper BVSD -110 Practical (**Object Oriented Programming using C++**)for External Marks 60 will be conducted by External Examiner appointed by University.

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Diploma in Retail Management

Duration	1 Year
Course Code	Course Name
BVRM-101	English
BVRM -102	Basics of marketing
BVRM -103	Fundamentals of Customer Services
BVRM -104	Basics of Retailing
BVRM -105	Project Work (Safety methods at work Place)
BVRM- 106	Computer Practical-I (MS-Office)
BVRM -107	Computer Application in Retail Business
BVRM -108	Fundamental of Accounting
BVRM -109	Environmental Studies
BVRM -110	Business organisation and management
BVRM -111	Project Work (Health and Hygiene at work place)
BVRM -112	Store Operations-I

BVRM -101: ENGLISH

External Marks: 60

Internal Marks: 40

Time: 3 hours

Total Credits as per Qualification pack: 5

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

- Objective:**
1. To make the students conversant and fluent in English
 2. RAS/ NO114 To Process credit applications for purchases
 3. RAS/ NO126 To help customers choose right products
 4. RAS/ NO130 To create a positive image of self and organisation in the customers mind
 5. RAS/ NO132 to resolve customer concerns
 6. RAS/ NO134 to improve customer relationship
 7. RAS/NO 137 to work effectively in your team
 8. RAS/NO 138 to work effectively in your organisation

UNIT I

Tenses, Auxiliaries, Subject-Verb Concord, , Conjunction, Preposition, Articles.

UNIT II

Synonyms/Antonyms, Homophones, Prefix, Suffix, One Word Substitution.

UNIT III

Translation (Hindi to English), Retranslation (English to Hindi) Curriculum Vitae, Paragraph Writing on current and business issues.

UNIT IV

Comprehension, , Dialogues Writing, Voices, Narration

SUGGESTED READINGS:

5. Communication Skills in English by D.G. Saxena & Kuntal Tamang
6. *Word Power Made Easy* by Norman Lewis
7. Remedial English *Grammar* by *Frederick T. Wood*
8. Intermediate Grammar Usage & Composition by Tickoo M.L.

Note: Latest and additional good books may be suggested and added from time to time.

BVRM-102 BASICS OF MARKETING

External Marks: 60

Internal Marks: 40

Time: 3 hours

Total Credits as per Qualification pack: 5

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

- Objective:**
1. To help students to understand the concept of marketing and its applications
 2. To expose the students to the latest trends in marketing.
 3. RAS/NO 135 to monitor and solve service problems
 4. RAS/NO 136 to promote continuous improvement in service
 5. RAS/NO 128 to maximise sales of goods & services
 6. RAS/NO 127 to provide specialist support to customers facilitating purchases
 7. RAS/NO 133 to organise the delivery of reliable service

Unit I

Introduction to Marketing: Meaning, Definition, Nature, Scope, Importance, difference between sales and marketing, The Holistic marketing, Target marketing.

Unit II

Marketing Environment: Components of modern marketing information system, analysing the marketing environment- Micro and Macro, Demand forecasting –need and techniques

Unit III

Consumer markets, Factors influencing consumer behaviour, buying decision process, analysing business markets- the procurement process

Unit IV

Market Segmentation: Bases for Market Segmentation, Market Targeting Strategies, designing and managing marketing channels, marketing mix

SUGGESTED READINGS:

29. Philip Kotler - Marketing Management
30. J.C. Gandhi - Marketing Management
31. William M. Pride and O.C. Ferrell – Marketing.

Note: Latest and additional good books may be suggested and added from time to time.

BVRM -103: FUNDAMENTALS OF CUSTOMER SERVICE

External Marks: 60

Internal Marks: 40

Time: 3 hours

Total Credits as per Qualification pack: 5

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Objective: 1.To help students understand the critical need for service orientation in the current business scenario.

2. RAS/ NO126 To help customers choose right products
3. RAS/ NO130 To create a positive image of self and organisation in the customers mind
4. RAS/ NO132 To resolve customer concerns
5. RAS/ NO134 To improve customer relationship
6. RAS/NO 137 To work effectively in your team
7. RAS/NO 138 To work effectively in your organisation
8. RAS/NO 125 to demonstrate products to customers .
9. RAS/NO 135 to monitor and solve service problems
10. RAS/NO 136 to promote continuous improvement in service
11. RAS/NO 128 to maximise sales of goods & services
12. AS/NO 127 to provide specialist support to customers facilitating purchases
13. RAS/NO 133 to organise the delivery of reliable service
14. RAS/NO 129 to provide personalised sales & post- sales service support

Unit I

Focus on Customers: Understanding the Customers, Understanding Customer Service, Service Triangle, Benefits of Exceptional Customer Service, Customer Delight, First Impressions, and Perception vs. Reality.

Unit II

Scanning Environmental and Cultural Influences: Environmental and Cultural Influences on Customer Behaviour, creating, delivering and sustaining value

Unit III

Building Customer Relationship: Why do People do Business with you, Ways to Address Human Needs, Building Relationships through Valuing the Customer, Building Rapport, Emotional Bank Account, the Value Equation.

Unit IV

Empathy, Empathy vs. Sympathy, Problem Solving, Customer Interaction Cycle. Communication Styles: Three Main Styles. (Aggressive, Passive and Assertive), Disagreement Process, Selective Agreement, Benefits of Assertive Communication

SUGGESTED READINGS:

1. Peeru Mohammed: Customer Relationship Management
2. Grover S K: Marketing: A Strategic Orientation
3. P. Kotler: Marketing Management
4. R. Saxena: Marketing Management
5. Stanton: Marketing Management

Note: Latest and additional good books may be suggested and added from time to time.

BVRM-104: BASICS OF RETAILING

External Marks: 60

Internal Marks: 40

Time: 3 hours

Total Credits as per Qualification pack: 5

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Objectives:

1. To get known to the students about prevailing, past and future scenario of retailing in India.
2. RAS/NO 125 to demonstrate products to customers.
3. RAS/ NO126 To help customers choose right products
4. RAS/ NO130 To create a positive image of self and organisation in the customers mind
5. RAS/ NO132 To resolve customer concerns
6. RAS/ NO134 To improve customer relationship
7. RAS/NO 137 To work effectively in your team
8. RAS/NO 138 To work effectively in your organisation
9. RAS/NO 135 to monitor and solve service problems
10. RAS/NO 136 to promote continuous improvement in service
11. RAS/NO 128 to maximise sales of goods & services
12. RAS/NO 127 to provide specialist support to customers facilitating purchases
13. RAS/NO 133 to organise the delivery of reliable service
14. RAS/NO 146 to organise the display at the store
15. RAS/NO139 to plan visual merchandising

Unit – I

Introduction – Meaning, nature, scope, importance, growth and present size. Career options in retailing, Technology induction in retailing, future of retailing in India,

Unit – II

Types of retailing: stores classified by owners, stores classified by merchandising categories. Retailing formats, cash and carry business; Retailing models- franchiser franchisee, directly owned; wheel of retailing and retailing life cycle; cooperation and conflict with other retailers.

Unit -III

Retail planning- importance and process; developing retailing strategies: objectives, action plans, pricing strategies and location strategies, visual merchandising and displays

Unit – IV

Retail Selling Skills: Pre-Check, Opening the Sale, Probing, Demonstration, Trial, Handling Objections, Closing, Confirmations & Invitations. Retail Audits, Online Retailing, and changing role of retailing in globalised world

SUGGESTED READINGS:

4. Swapna Pradhan, Retailing Management, Tata Mc Graw Hill Publishing Company, New Delhi
5. Barry Berman, Joel R. Evans, Retail Management, Pearson Education
6. A. J. Lamba, The Art of Retailing, Tata McGraw Hill Publishing Co. Ltd. New Delhi

Note: Latest and additional good books may be suggested and added from time to time.

BVRM-105: PROJECT WORK

Max Marks: 100

Total Credits as per Qualification pack: 5

Objectives: 1. To learn students the practical tactics of retail business

2. RAS/NO 114 to process credit applications for purchases

3. RAS/NO 120 to keep store secure

4. RAS/NO to help maintain healthy and safety

5. RAS/NO 127 to provide specialist support to customers facilitating purchases

6. RAS/NO 128 to maximise sales of goods & services

7. RAS/NO 133 to organise the delivery of reliable service

Projects Based on Classification and Overview of Various Departments in Any Retail Set up,. Fundamentals of Retailing Operations, Foot falls, Conversion Rate, Basket size, Calculation of sales, Margins, Break-even point of a Retail business, Pre opening set up of a retail business, Divisions of organised Retail, Negotiations.

Foot falls: Location, Advertising, Brand, past experience

Conversion Rate: Right category, RightBrand, RightPrice, Right quantity

Basket size: Fill Rate, Store arrangement, Discount, Up selling, Tagging, Customer Care, Plano gram

Pre-opening Depts.: Purchase, Inspection, Masters Preparation, Schemes, Transportation, Rejections, Accounts and Finance.

Categories/Divisions in a Retail business: Food Items, Non- Food Items, Garments

Negotiations: Margin-Mark down , Delivery Time, Payment Terms, Freight & Insurance, Rejections, Damages, Expiries, Cash Discount, Display, Advisors, Testers, Quantity Based Inventories & Schemes, preparing purchase order,

Store security, Maintaining health and safety: measures of stores safety to be adopted, techniques and methods to keep employees healthy and safety measures in store.

BVRM -106: COMPUTER PRACTICALS-I (MS Office)

Max. Marks: 100

Total Credits as per Qualification pack: 5

PRACTICAL

Objective: To enhance the knowledge about the usage of the Computer and IT in retail business

I - MS WORD

7. Type Chairman's speech/ Auditor's report / Minutes/ Agenda and perform the following operations: Bold, Underline, Font Size, style, Background color, Text color, Line spacing, Spell Check, Alignment, Header & Footer, Inserting pages and page numbers, Find and Replace.
8. Prepare an invitation for the college function using Text Boxes and Clip Arts.
9. Design an Invoice and Account Sales by using Drawing Tool Bar, Clip Art, Word Art, Symbols, Borders and Shading.
10. Prepare a Class Time Table and perform the following operations: Inserting the Table, Data Entry, Alignment of Rows and Columns, Inserting and Deleting the Rows and Columns and Change of Table Format.
11. Prepare a Shareholders meeting letter for 10 members using mail merge operation.
12. Prepare Bio-Data by using Wizard/ Templates.

II- MS-EXCEL

1.Applications of a Spreadsheet; Advantages of an Spreadsheet; Features of Excel; Rows, Columns, Cell, Menus, Creating worksheet, Formatting, Printing, establishing worksheet links, Table creating and printing graphs, Macros, Using Built-in-functions.

BVRM -107: COMPUTER APPLICATION IN RETAIL BUSINESS

External Marks: 60

Internal Marks: 40

Time: 3 hours

Total Credits as per Qualification pack: 5

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Objective: To enhance the knowledge about the usage of the MIS in retail business

Unit I

Introduction: Managing in Information Age, Evolution of IT Management, Types of Information Systems, Internet Based Business Systems, Value Chain Reconstruction for E-Business, IT Management Challenges and Issues, Critical Success Factors for IT Managers.

Unit II

Hardware Software and Communication: Computing Hierarchy, Input – Output, Technologies, Hardware Issues, System Architecture, Operating Systems, Network Operating Systems, Grid Computing, Mobile Computing, Ubiquitous Computing, Application Programming, Managing Application Development, Data Resources, Managing Data Resources, Problem of Change and Recovery.

Unit III

IT Applications: Enterprise Resource Planning, Enterprise System, Expert System, Decision Support System, Neural Networks, Executive Information System, Customer Relationship Management System, Supply Chain Management Systems, Knowledge Management, Data Warehousing, Data Mining, Virtual Reality, E-Business and Alternatives, E-Business Expectations and Customer Satisfaction.

Unit IV

Retail Information Systems: Approaches to EPOS, Auto Identification, Data Capture and Product Marking, Payments System at POS, Smart Cards, EPOS Products and Supplier, Managing Retail through Technology, Approaches to EPOS.

SUGGESTED READINGS:

1. Garroll W. Frenzel Johne. Frenzel, Management of Information Technology, Thomson Course Technology, Boston, 2004.
2. Henry C. Lucas. Jr, Information Technology – Strategic Decision Making for Managers, John Wiley & Sons (Asia) Pvt. Ltd., Singapore, 2005.
3. Efraim Turban, R. Kelly Rainer Jr, Richard E. Potter, Introduction to Information Technology, John Wiley & Sons, (Asia) Pvt. Ltd. Singapore, 2004.
4. Swapna Pradhan, Retailing Management, Tata Mc Graw Hill Publishing Company, New Delhi 5 Barry Merman, Joel R. Evans, Retail Management, Pearson Education.

BVRM-108 FUNDAMENTAL OF ACCOUNTING

External Marks: 60

Internal Marks: 40

Time: 3 hours

Total Credits as per Qualification pack: 5

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Objective:

1. This paper is aimed at providing comprehensive knowledge of maintenance of accounts under different agreements.
2. RAS/NO 151 manage a budget
3. RAS/NO 148 to maintain the availability of goods for sale to customers

UNIT I

Meaning and Scope of Accounting: Nature of, Basis of Accounting, Accounting Process from Recording of Business Transaction to Preparation of Trial balance,

Unit II

Fundamentals of Book-keeping: Accounting Principles, Concepts and Conventions, Journal, Ledger, Subsidiary Books,

Apportionment of Capital and Revenue Expenditure; Significance and Methods of Inventory Valuation and inventory management, Final Accounts of Sole Trader with adjustments

UNIT III

Preparation of Bank Reconciliation Statement, Errors and their Rectification, Depreciation Accounting,

UNIT IV

Hire Purchase, instalment payment system, accounting Ratios, Budgetary Control

SUGGESTED READINGS:

9. Gupta R.L., Advanced Accounting Vol. I, S. Chand & Sons, New Delhi
10. Grewal T.S. and M.C. Shukla, Advanced Accounting Vol. I, S. Chand & Sons, New Delhi
11. Monga, J.R., Financial Accounting, Margin Paper Bank, New Delhi
12. Maheshwari S.N., Advanced Accounting Vol. I, Vikas Publications

Note: Latest and additional good books may be suggested and added from time to time.

BVRM -109: ENVIRONMENTAL STUDIES

External Marks: 60

Internal Marks: 40

Time: 3 Hours

Total Credits as per Qualification pack: 5

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Objective: 1. This paper is aimed at providing a comprehensive knowledge of mechanism of Ecological System

2. RAS/NO 122 to maintain health and safety

UNIT I

Environmental Studies: Nature, Scope and Importance, Need for Public Awareness, Natural Resources, Renewable and Non-Renewable Resources, Use and Over-Exploitation/Over-Utilization of Various Resources and Consequences, Role of an Individual in Conservation of Natural Resources, Equitable use of Resources for Sustainable Lifestyles.

UNIT II

Ecosystems: Concept, Structure and Function of an Ecosystem, Energy Flow in the Ecosystem, Ecological Succession, Food Chains, Food Webs and Ecological Pyramids, Types of Ecosystem : Forest Ecosystem, Grassland Ecosystem, Desert Ecosystem, Aquatic Ecosystems. Environmental Pollution: Definition, Causes, Effects and Control Measures of Different Types of Pollutions, Air Pollution, Water Pollution, Soil Pollution, Marine Pollution, Noise Pollution, Thermal Pollution, Nuclear Hazards, Solid Waste Management: Causes, Effects and Control Measures of Urban and Industrial Wastes, Role of an Individual in Prevention of Pollution

UNIT III

Social Issues and the Environment: Sustainable Development, Urban Problems Related to Energy, Water Conservation, Rain Water Harvesting, Watershed Management, Resettlement and Rehabilitation of People, Its Problems and Concerns, Climate Change, Global Warming, Acid Rain, Ozone Layer Depletion, Nuclear Accidents and Holocaust, Wasteland Reclamation, Consumerism and Waste Products.

UNIT IV

Environmental legislation: Environment Protection Act. Air (Prevention and Control of Pollution) Act. Water (Prevention and Control of Pollution) Act, Wildlife Protection Act, Forest Conservation Act.

SUGGESTED READINGS:

1. Rajagopalan R, Environmental Studies, Oxford University Press, New Delhi
2. Kaushik Anubha, C.P. Kaushik, Perspective in Environmental Studies, New Age International (P) Ltd. Publishers
3. Joseph Benny, Environmental Studies, Tata McGraw Hill Publishing Company Ltd., New Delhi
4. Ubaroi, N.K., Environment Management, Excel Books, New Delhi

BVRM 110 BUSINESS ORGANISATION AND MANAGEMENT

External Marks: 60

Internal Marks: 40

Time: 3 hours

Total Credits as per Qualification pack: 5

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Objective: 1. This paper will impart conceptual knowledge of different forms of Business Organizations

2. RAS/NO 147 To process the sale of products
3. RAS/NO 131 to allocate and check work in your team
4. RAS/ NO 137 To work effectively in your team
5. RAS/NO 138 to work effectively in your organization
6. RAS/NO 145 to communicate effectively with stake holders
7. RAS/NO 142 provide leadership for your team

Unit I

Basic Concepts: Business Organization and its Scope – Business, Profession, employment, Industry, Trade, Types of Trade and Aids to Trade, Types of Industries

Forms of Business Organizations: Sole Trader – Characteristics, Merits and Demerits of Sole Trader, Joint Hindu Family: Karta, Merits and Demerits.

Unit II

Partnership: Characteristics, Merits and Demerits, Partnership Deed, Types of Partners, Rights and Duties of Partners.

Joint Stock Company: Characteristics, Merits and Demerits, Kinds of Companies, Promoters

Unit III

Incorporation of Joint Stock Company: Procedure and Incorporation of Joint Stock Company, Memorandum of Association, Articles of Association, Prospectus.

Co-Operative Societies: Characteristics, Types of Co-Operative Societies, Merits and Demerits

Unit-IV

Management: Introduction, concept, nature, process and significance, **Planning:** concept, types and process, **Organizing:** concept, nature, process and significance **Staffing:** concept, nature and scope.

SUGGESTED READINGS:

1. L.M. Prasad: Organisational Behaviour
2. Koontz & O'Donnel: Principles of Management

Note: Latest and additional good books may be suggested and added from time to time.

BVRM 111 PROJECT WORK

Max. Marks: 100

Total Credits as per Qualification pack: 5

- Objectives:** 1. Overview of Various Departments in any retail setup
2. RAS/NO 114 to process credit applications for purchases
 3. RAS/NO 133 to organise the delivery of reliable service
 4. RAS/NO 137 to work effectively in your team

Projects to be made on detailed functioning of Purchase Dept., Warehousing / Logistics, Accounts, Schemes, IT, HR, Front Operations, Allied services like Housekeeping / Security / Assets management, Repair and Maintenance.

Purchase Department: Vendor registration Form, Various terms in details, Purchase order, Basis of Purchase order, Stock Turnover. Duly filled forms, duly filled purchase orders,

Warehousing Aspects in details: Gate Entry Formats, Goods receiving (Stamps to be made), Inspection of goods received, Inspection report format, Masters Creation, Classification / Categories / MIN and MAX, Sample masters of 10 Items, GRC Process, Sample GRC, Bar coding Process, Sample barcodes Printing, Stacking Process, Issue to Store process

Purchase Invoice Process: Sample Purchase Invoice, Vendor Payment, GRT process, Sample GRT, Physical Stock take.

BVRM -112: STORE OPERATIONS-I

Max. Marks: 100

Total Credits as per Qualification pack: 5

PRACTICAL TRAINING

This module explains the different operating processes and their significance in running retail operations smoothly. It also helps develop necessary skills for planning, monitoring and controlling merchandise in a retail store.

Area of Study

- Managing Retail Operations
- What are Store Operations
- Productivity & Operating Efficiency
- Most Common Mistakes of Retailers
- Controls Essential for successful operations
- Measuring Performance
- Stock Turn
- Franchising
- Store Appearance & House Keeping
- Functions of a Store Manager
- Promotion, Planning and Execution Retail Operations

Suggested Instructional Methodology

Store visits have to be organized to get them acquainted them with day to day operations of a store

SUGGESTED READINGS:

1. Swapna Pradhan, Retailing Management, Tata Mc Graw Hill Publishing Company, New Delhi
2. Barry Berman, Joel R. Evans, Retail Management, Pearson Education
3. A. J. Lamba, the Art of Retailing, Tata McGraw Hill Publishing Co. Ltd. New Delhi

Note: Latest and additional good books may be suggested and added from time to time.

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Diploma Course in Financial Management (For BBA (CAM) & BBA Students)

This programme contains six certificate courses and one diploma course

- Certificate in Personal Computing and Digital Lifestyle
- Certificate in Advance Business Analysis tools and Techniques
- Certificate in Computerized Financial Accounting Using Tally ERP 9, level 1
- Certificate in Computerized Financial Accounting Using Tally ERP 9, level 2
- Certificate in Corporate Finance and Management Accounting for Management.
- Certificate in Capstone Project using Tally ERP 9 with GST and implementation of TDS transactions.

Objectives

18. To enable the learner to use MS Office Excel 2013 to analyze and calculate complex data
19. To enable the learner to understand & apply scenario based problem solving techniques.
20. To enable the learner to introduce accounting on computers Using Tally ERP 9.
21. To enable the learner to work on tax and Payroll management using Tally ERP 9.
22. To enable the learner to understand corporate finance and Accounts Management.
23. To enable the learner to implement the tools & techniques learnt in the entire program and helps student to develop inter personal skills.

Benefits

After the completion of this course

- The student will be able to apply advanced features of MS Excel 2013 and it will benefit them at their work place leading to increase in productivity and efficiency.
- The student will be able to perform financial analysis and use financial techniques effectively.
- The learner acquires necessary knowledge & Skills so as to effectively manage accounting & inventory.
- The learner acquires various skills required to apply statutory compliance and implementation of payroll using Tally ERP 9.
- The student will be able to apply the concepts of Capital Management and Capital Budgeting.
- The student will be practically exposed to all contents learnt in previous semesters.

Duration

300 Hours

Examination

Semester-1

Paper	Title of the paper
Paper-1	Understanding Data using MS Office
Paper-2	Data Analysis using MS Office Excel 2013

Semester-2

Paper	Title of the paper
Paper-1	Introduction of Business Analysis
Paper-2	Financial Analysis and Techniques

Project: 20 hours

Using Advance Excel to do Analysis (Case Study).

Semester-3

Paper	Title of the paper
Paper-1	Introduction of Accounting
Paper-2	Fundamentals of Tally ERP 9

Semester-4

Paper	Title of the paper
Paper-1	Basics of Taxes
Paper-2	Payroll Management using Tally ERP 9

Project:20hours

Implementation of TDS / TCS and Tax transactions.

Semester-5

Paper	Title of the paper
Paper-1	Fundamental of Financial Management
Paper-2	Corporate Finance and Accounts Management

Semester-6

Paper	Title of the paper
Paper-1	Professional Skill Development
Paper-2	Project Study on Taxes, Finance and Accounts

Final Certificate after successful completion of three years: Diploma in Financial Accounting

SEMESTER: 1

Objective

This Course enables the learner to use MS Office Excel 2013 to analyze and calculate complex d

Benefit

After completing this course, student will be able to apply advanced features of MS Excel 2013 and benefit at their work place by increasing productivity and efficiency.

Duration

50 Hours

Examination

Pen& paper examination will be conducted on completion of the course

Course contents & Syllabus

Understanding Data using MS Office –Paper 1

- Organize, analyze and present data for operations and reporting purposes
 - Worksheets.
 - Workbook.
 - Cells.
 - Rows and columns.
 - Represent data in rows and columns
 -
- Perform "what-if" & data analysis for developing financial, marketing and plans
 - Goal seeks.
 - Scenario Manager.
 - Solver.
- Use tools & techniques to process and enhance the usefulness of data
 - Conditional formatting.
 - Summarizing Data.
- Organize and process statistical, mathematical, financial, and logical data
 - Mathematical functions.
 - Financial functions.
 - Logical functions.

Data Analysis using MS Office Excel 2013– Paper 2

- Employ new approaches such as PowerPivot for tabulating and managing data.
 - Pivot tables.
 - Usage of Pivot tables.
 - Sorting and filtering.

- Conditional formatting.
 -
- Create management dashboards dynamically using PowerPivot & Power View
 - View selected data.
 - View data using charts.
- Translate analysis into meaningful charts and graphs for better visual appeal
 - Graphs
 - Different types of Graphs.
 - Representing data using graphs.
 -
- Analyze, interpret, summarizing, and presenting data using PivotTables and PivotCharts
 - Pivot charts using pivot tables.
- Automate repetitive tasks to minimize manual labor in data analysis
 - Macros.
 - VB builder.

Certification

Certificate in Personal Computing and Digital Lifestyle

SEMESTER: 2

Objective

This Course enables the learner to understand & apply scenario based problem solving techniques.

Benefit

After completing this course, student will be able to perform financial analysis and use financial techniques.

Duration

50 Hours

Examination

Pen & paper examination will be conducted on completion of the course

Course contents & Syllabus

Introduction of Business Analysis – Paper 1

- Financial Statements
 - Identify the three constituents of financial statements
 - Identify the uses of financial statements
 - Learn about appreciation and depreciation
 - Learn about ageing analysis
 - Identify the steps to process import data into excel from web
- Financial Calculations and Formulas
 - Learn to calculate the present value of an uneven cash flow
 - Understand the meaning of sinking fund
 - Identify the types of perpetuity
 - Learn to calculate the present value of perpetuity
 - Learn to calculate PMT, future value and NPV using excel formulas
- Bond and Equity Valuation
 - Identify the various methods of bond valuation
 - Identify the terms and terminologies associated with bond valuation
 - Identify common yield measures
 - Learn about investment risk and returns
- Ratio Analysis-Part 1
 - Identify the role of financial ratios in analysing financial data
 - Identify the types of liquidity ratios
 - Identify the types of turnover ratios
- Ratio Analysis-Part 2
 - Understand the meaning of accounting ratios
 - Identify the objectives of accounting ratios
 - Identify the types of capital structure ratios
 - Identify the types of coverage ratios

Financial Analysis and Techniques – Paper 2

- Budgets and Budgetary Control
 - Define budget
 - Identify the advantages of making budget
 - Understand the meaning of budgetary control
 - Define financial models and its components
 - Identify the objectives of budget
 - Identify the methods used for forecasting sales in an organisation
 - Define cash budget
 - Identify the limitations of budget
- Evolution of Money and Banking
 - Trace the evolution of money
 - Trace the evolution of banking
- Financial Intermediaries
 - Understand the need of financial intermediaries
 - Identify various types of financial intermediaries
- Role of Banks
 - Appreciate banking as a business trust
 - Define the loan or credit services offered by the banks
 - Define retail credit services offered by banks
 - Define wholesale or corporate credit offered by banks
 - Define the services offered by banks as consultant to the payment system
- Technology and Trends in Banking
 - Identify the role of technology in banking
 - Identify new products in banking leveraging technology
- KYC and AML Guidelines
 - Identify and follow the Know Your Clients (KYC) guidelines
 - Understand the KYC policy and procedures

Certification

Certificate in Advance Business Analysis tools and Techniques for management

Project: 20 hours

Using Advance Excel to do Analysis (Case Study).

SEMESTER: 3

Objective

This Course enables the learner to introduce accounting on computers Using Tally ERP 9.

Benefit

After completing this course, the learner acquires necessary knowledge & Skills required for effectively manage accounting & inventory.

Duration

52 Hours

Examination

Pen& paper examination will be conducted on completion of the course

Course contents & Syllabus

Introduction of Accounting – Paper 1

- Fundamentals of Accounting
 - Understand the meaning of accounting
 - Identify the importance of accounting
 - Identify the terms used in accounting
 - Understand the accounting assumptions, concepts and principles
 - Identify the types of accounts
 - Learn and follow the golden rules of accounting
 - Understand the double entry system of accounting
- Journalising and Posting of Transactions
 - Classify transactions according to their nature
 - Learn about subsidiary book and control accounts
 - Learn about trial balance
 - Learn about trading and profit & loss account
 - Match balance sheet
- Maintaining Chart of Accounts in Tally.ERP9
 - Gain knowledge about computerized accounting
 - Create a company
 - Select and shut a company
 - Set companies chart of accounts by creating ledgers and groups
 - Display the company chart of accounts
- Fundamental of Inventory Management
 - Understand the meaning of inventory
 - Learn about inventory management
 - Identify the terms used in inventory management
 - Identify different types of inventory valuation
- Stock Keeping Units
 - Create stock groups

- Create units of measure
 - Create stock items and godowns
 - Define stock opening balance
- Recording of Day to Day Transactions
 - Record contra vouchers
 - Record payment and receipt vouchers
 - Record sales and purchase vouchers
 - Record credit note and debit note vouchers
 - Record journal and optional vouchers
 - Record memorandum voucher
 - Record inventory vouchers
 - Record stock transfers
- Accounts Receivable and Payable Management
 - Maintain party-wise bill details in Tally .ERP9
 - Keep track of receivable and payables
 - Set-off bills using the different methods of adjustment
 - Make partial and full payment entries
 - Record credit transactions
 - Manage outstanding credit limits
 - Manage performance of debtors

Fundamentals of Tally ERP 9 – Paper 2

- Banking
 - Configure cheque printing
 - Manage cheque in Tally.ERP9
 - Print cash and cheque deposits slips
 - Print payment advice
 - Perform bank reconciliation
 - Record post-dated cheque
 - Activate auto bank reconciliation
 - Activate auto bank reconciliation in Tally.ERP9
 - Manage E-payments in Tally.ERP9
 - Check e-payments reports
- Incomes
 - Create and maintain the cost categories
 - View reports relating to cost centres and cost categories
 - Create and maintain cost centres class
 - Generate reports related to cost centre and categories
- MIS Reports
 - Identify and list the purpose of different MIS reports
 - Generate MIS reports in Tally .ERP9
 - Customize and analyse MIS reports in Tally .ERP9

- Storage and Classification of Inventory
 - Learn to manage godowns
 - Create and store inventories in godowns
 - Record purchase and sales vouchers with godowns
 - Identify stock categories
 - Maintain summary reports
 - Create and maintain batch-wise details
 - Record transaction by honouring the expiry date of batches
- Management of Purchase and Sales Cycle
 - Handle complete sales and purchase order processing
 - View order details and outstanding reports
 - Close orders due to cancellation, lack of stocks or return of goods etc
- Price Levels and Price Lists
 - Create and maintain price levels and price lists
 - Use price lists while passing invoice
- Manufacturing Process
 - Understand manufacturing process
 - Create manufacturing journal voucher
 - Record stock journal vouchers
 - Check reports like cost estimation and transfer analysis

Certification

Certificate in Computerized Financial Accounting Using Tally ERP 9, level 1

SEMESTER: 4

Objective

This Course enables the learner to work on tax and Payroll management using Tally ERP 9.

Benefit

After completing this course, the learner acquires necessary knowledge & Skills required for to apply statutory compliance and Implement payroll using Tally ERP 9

Duration

52 Hours

Examination

Pen& paper examination will be conducted on completion of the course

Course contents & Syllabus

Basics of Taxis – Paper 1

- Getting Started with GST 1
 - Activate GST for a company in Tally.ERP9
 - Record and maintain GST registration details for the company
 - Transfer input credit
 - Print GST invoices
 - Record good return
 - Define tax rated at different level
 - Record GST tax payment
 - Generate GSTR-1 and GSTR-2 reports
 - Export GSTR 1 return
 - Learn about the accounting of supply of services and exempted services
- Getting Started with GST 2
 - Activate GST for a company in Tally.ERP9
 - Record and maintain GST registration details for the company
 - Transfer input credit
 - Print GST invoices
 - Record good return
 - Define tax rated at different level
 - Record GST tax payment
 - Generate GSTR-1 and GSTR-2 reports
 - Export GSTR 1 return
 - Learn about the accounting of supply of services and exempted services
- Tax Deduced at Source 1
 - Configure tax deducted at source in Tally.ERP9
 - Configure TDS at different levels
 - Record different types of TDS transactions
 - Handle expenses partly subjected to TDS
 - Manage the accounting of multiple expenses
 - Manage accounting of TDS at zero and lower rate

- Manage accounting of TDS on fixed assets
- Manage payment of TDS to government
- Generate TDS reports and challans
- Tax Deduced at Source 2
 - Configure tax deducted at source in Tally.ERP9
 - Configure TDS at different levels
 - Record different types of TDS transactions
 - Handle expenses partly subjected to TDS
 - Manage the accounting of multiple expenses
 - Manage accounting of TDS at zero and lower rate
 - Manage accounting of TDS on fixed

Payroll Management using Tally ERP 9 – Paper 2

- Securing Financial Information
 - Learn to use security control features to secure financial data
 - Create and alter security levels in Tally.ERP9
 - Create users and passwords under different security levels
 - Learn to login with different user credentials
 - Use Tally Vault to secure the financial data
 - Identify the benefits of Tally Vault password
 - Understand the meaning of password policy
- Data Management and Financial Year End Process 1
 - Backup and restore company data in Tally.ERP9
 - Export and import data in Tally.ERP9
 - Export data in different formats like Excel and PDF
 - Know the E-mailing capabilities of Tally.ERP9
 - Learn to use E-mail facility in Tally.ERP9
 - Learn to split the company data
- Data Management and Financial Year End Process 2
 - Backup and restore company data in Tally.ERP9
 - Export and import data in Tally.ERP9
 - Export data in different formats like Excel and PDF
 - Know the E-mailing capabilities of Tally.ERP9
 - Learn to use E-mail facility in Tally.ERP9
 - Learn to split the company data

Certification

Certificate in Computerized Financial Accounting Using Tally ERP 9, level 2

Project: 20hours

Implementation of TDS / TCS and Tax transactions.

SEMESTER: 5

Objective

This Course enables the learner to understand corporate finance and Accounts Management.

Benefit

After completing this course, student will be able to understand capital Management and Capital budgeting.

Duration

48 Hours

Examination

Pen & paper examination will be conducted on completion of the course

Course contents & Syllabus

Fundamental of Financial Management – Paper 1

- Introduction to Financial Management
 - Describe subject of financial management
 - Identify the goals of the financial management
 - Understand the basics of Financial management
- Strategic Financial Management
 - Identify the Types of Finances.
 - Learn About the financial decision making.
 - Understand the fund requirement of the organization.
 - Understand the significance of strategic financial planning.
 - Estimate financial requirements.
 - Identify the methods and tools of financial management
 - Identify the types of risks associated with business
 - Learn to calculate operation and net profit
 - Understand therelevance of time value of money in financial decisions
 - Identify basic jargons used in finance
 - Understand the nature of financial analysis
- Tools of Financial Analysis
 - Understand nature and types of financial analysis
 - Understand the advantages and disadvantages of financial analysis
 - Understand various tool of financial analysis
- Working Capital Management & Capital Budgeting :
 - Understand the various concepts relating to capital budgeting
 - Understand various concepts relating to capital investment decisions
 - Understand the factors affecting capital investments and project evaluation
- Capital Investment Decision
 - Understand various techniques of capital budgeting decisions making
 - Understand practical application of various capital budgeting techniques

- Capital Budgeting Principles and Techniques
 - Understand the meaning of risk and uncertainty
 - Identify the risk and investment proposals
 - Describe the risk and uncertainty incorporated methods of capital project evaluation
- Source of Finance
 - Gain knowledge about the long-term sources of finances
 - Gain knowledge about short term sources of finance
- Long Term Sources and Short term sources of finance
 - Choose between short-term and long-term source depending upon the objective
 - Determine the best suited resource among the various short-term and longterm resources
 - Apply the characteristic features of new instruments and incorporate them in a given business depending upon their characteristic features and advantage
- Bank Finance
 - Understand Term Loan Concepts
 - Identify Steps involved in term loans
 - Identify the Terms and conditions for granting term loans for projects
 - Identify the Procedure for Loan Disbursement
 - Identify the term lending institutions in India
 - Identify the steps in Term Loan Processing
 - Identify the procedure for term loan
 - Know the Loan Amortization Schedule.
- Project Appraisal
 - Understand the concepts relating to Project Report
 - Understand elements of Financial Analysis
- Determination of capital structure
 - Get introduced to capital structure
 - Identify the features of appropriate capital structure
 - Identify the forms of capital structure
 - Identify the need for capital structure
 - Identify the key considerations in capital structure planning
 - Identify the factors influencing pattern of capital structure
 - Identify the determinant of capital structure
 - Identify the principles of capital structure decisions
 - Know the criteria for determining pattern of capital structure
 - Understand the capital structure theories
 - Learn about taxation and capital planning
 - Understand the relevance of debt-equity ratio in public enterprises
- Capital Structure and cost of capital
 - Learn and follow capital structure policies
 - Learn and follow guidelines for capital structure decisions
 - Understand the relationship between EBIT and EPS
 - Identify the importance of IT in finance
- Leverages
 - Identify the characteristics of leverage
 - Identify the types of leverage
 - Identify the uses of leverage
 - Analyse EBIT and EPS
 - Identify the importance of leverage

- Cost of Equity, Cost of Debt and Cost of retained earnings
 - Calculate cost of equity
 - Calculate cost of preference share capital
 - Calculate cost of retained earnings
 - Calculate cost of debt
 - Identify the managerial decisions effects on cost of capital
- Weighted Average Cost of Capital (WACC)
 - Understand the concept of WACC
 - Learn to calculate WACC
- Cost of capital and Required Rate of Returns
 - Learn about cost of capital and required rate of returns(RRR)
 - Identify the determinants of required rate of return
 - Understand the use of cost of capital in managerial decisions
 - Learn about the cost of capital strategy in business

Corporate Finance and Accounts Management –Paper 2

- Management of Finance
 - Identify balancing financial goals concerning substantial growth
 - Identify the changing paradigm in financial goals
 - Understand the shifting approach in finance organization
- Working With Capital Management
 - Estimate the different components of current assets
 - Learn how to arrive at required working capital requirements
- Cash Management
 - Understand practical aspects of cash management
 - Understand relevance of cash management in finance
- Receivable Management
 - Understand the importance of receivable management
 - Identify the credit management process
 - Identify the factors affecting policies for managing accounts receivables
- Inventory Management
 - Identify the techniques of inventory management
 - Identify the steps for integrated working capital planning
 - Learn about the inventory management strategy and systems
 - Learn to reduce cost through inventory management
- Indian Financial Market.
 - Identify the constituents of a financial system
 - Learn about money market and capital market
 - Understand the regulatory framework
 - Learn about the financial market development in India
 - Learn about stock exchanges
- Financial Market Operations
 - Gain knowledge about Indian financial system reforms
 - Learn about public issue
 - Learn about underwriting of shares
 - Learn about corporate governance
- Management of Financial Services

- Identify the agencies providing financial services
- Classify financial intermediaries in India
- Identify the scope of financial services
- Identify new financial products and services
- Identify the sources of revenue of financial intermediaries
- Identify the challenges faced by financial services sector saving mobilisation
- Identify the modern activities of financial services
- Understand the financial services operations in India
- Globalisation of Financial Markets International Financial Management
 - Identify the facets of globalization and their manifestations
 - Identify the constituents of sound governance in the contemporary world
 - Learn about the developments in global finance
 - Identify the recent changes in global financial markets
 - Understand AS-31 and AS-32
 - Learn about European monetary system
 - Learn about American depositary receipt and global depositary receipt (GDR's)
 - Identify the functions of Learn and identify the meaning and scope of international finance
 - Learn about foreign exchange market
- Financial Derivatives
 - Identify the basic financial derivatives
 - Identify the features of financial derivatives
 - Learn about financial engineering growth and development
 - Identify the characteristics of financial engineering
 - Identify the reasons for rapid growth in financial engineering
 - Identify the tools of financial engineering
 - Identify the benefits of financial engineering
 - Identify the uses of financial engineering
- Restructuring of Business
 - Discuss the meaning and Different forms or types of Corporate Restructuring
 - Understand the terms used in Corporate Restructuring and Categories of Corporate Restructuring
- Financial Reporting Regulations
 - Understand IFRS and Indian Situation
 - Understand GAPP (Generally Accepted Accounting Principles)
- Investment Analysis
 - Learn the concepts of Investment Analysis
 - Understand CAPM and APT Model
- Portfolio Management
 - Understand the concepts of Portfolio Management
 - Learn the measures of Portfolio
- Dividend Policy
 - Understand the meaning of dividend
 - Identify the types and purpose of Dividend
 - Identify various factors which influence the determination of Dividend Policy
- Performance Measurement Criteria
 - Understand the concept of Corporate Governance
 - Understand corporate governance in financial sector
- Ethical issues in Financial Management
 - Understand the importance of Ethics in Business Finance
 - Understand Ethical Issues in financial Management

Certification

Certificate in Corporate Finance and Management Accounting for Management.

SEM:6

Objective

This Course enables the learner to implement the tools & techniques learnt in the entire program and helps student to develop inter personal skills.

Benefit

After completing this course, student will be well versed with all contents learnt in previous semesters

Duration

48 Hours

Examination

Pen& paper examination will be conducted on completion of the course

Course contents & Syllabus

Professional Skills

Professional Skill Development –Paper 1

- **Effective Conversation.**
 - Identify the importance of conversation in communication
 - Explain the stages in a conversation
 - Identify the constituents of a good conversation
 - Understand the techniques to improve conversation
 - Identify common errors in speech
 - Practice conversational skills through role play
- **Assertive Communication**
 - Assess your assertive communication skills
 - Identify the features of assertive communication
 - Understand the techniques for assertiveness
 - Understand types of questions
 - Practice asking quality questions
- **Written Communication**
 - Identify the need of effective business writing
 - Understand the types of business writing
 - Appreciate and use five C's of effective writing
 - Identify and correct mistakes in writing
 - Identify how to make business writing effective
- **Self-Presentation**
 - Understand the concept and importance of first impressions
 - Understand the concept of 'self-brand'
 - Understand the importance of creating a visual identity
 - Understand grooming guidelines
- **Working in Teams.**
 - Understand teamwork and the importance of working in teams
 - Understand team roles and the responsibilities of a team member
 - Explain effective leadership
- **Critical Thinking and Problem Solving**
 - Apply critical thinking and problem solving techniques and processes
 - Summarise the process and conclusions derived
 - Perform project management activities to fulfil the requirement of the assigned project

- Health, Safety and Security
 - Explain the need for workplace safety
 - Explain the basic workplace safety guidelines
 - Identify the common safety signs used
 - Identify and address security tests and risks
- Planning and Prioritizing
 - Explore the various strategies of effectively utilizing the available time
 - Create an action plan to manage time
 - Identify your role and responsibilities in carrying out your work
 - Identify the need to plan and organize your work to achieve targets and deadlines
- Values and ethics concepts
 - Understand the importance of business ethics
 - Understand the importance of business values
 - Identify the role of business values on quality and business growth
 - Evaluate what is responsibility and how to become responsible
 - Apply the guidelines for showing respect and maintaining integrity
- SWOT and Self-Awareness
 - Recognise personal strengths and weaknesses
 - Understand Personal Quality Initiative (PQI)
 - Create a self-development plan
- Providing Data in Various Formats
 - Understand the importance of presenting data in professional life
 - Identify the guidelines when presenting data
 - Identify the tools used to present and report data
 - Identify the different formats and reporting types used in professional life
- Develop your knowledge, skills, and competence
 - Provide data/ information in standard formats
 - Identifying training needs
 - Understanding Organization Policies and Procedures
 - Aptitude Test practice
- Understanding Organization Policies and Procedures
 - Understand the need of organisation policies and procedures
 - Identify the common policies and procedures used in organizations

Project Study on Taxes, Finance and Accounts –Paper 2

Case Study based project using the tools & techniques learnt in the entire program.

- Create the company in Tally.ERP9.
- Configure GST in Tally.ERP9.
- Creation of master for GST.
- Creation of ledgers as per opening Trial Balance.
- Create Stock Group.
- Create Stock items.
- Enter transactions for April to 1st Jul 2017.
- Enter transactions for 2nd Jul 2017 to Aug 2017.
- Configure TDS in Tally.ERP9.
- Enter transactions related to TDS.
- Generate TDS report.
- Generate GST report.
- Create Stock Summary as on 2nd Jul 2017.

- Display Trial Balance as on 2nd Sep 2017.
- Daybook Report from 1st Jul 2017 to 02nd Sep 2017.
- Clear backlog (if any).

Certification

Certificate in Capstone Project using Tally ERP 9 with GST and implementation of TDS transactions.

Aggarwal College Ballabgarh

**A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)**

Diploma Course in Computer Applications

This programme contains six Certificate Courses and one Diploma Course.

- Certificate in Computer overview and programming structure and methodology
- Certificate in Working with MS Office 2013
- Certificate in Logic Building and Effective Problem Solving.
- Certificate in Information Systems and Common Business Processes
- Certificate in JAVA 7
- Certificate in Professional skills

Objectives

- Ability to get overview of the computers and program structure and methodology.
- Proficiency to Create documents, Analyze data and make presentations.
- Demonstrate the ability to learn Logic Building and Effective Problem Solving.
- Create deep focus on enterprise resource planning, sales and marketing and managing data using SQL.
- Familiarize students with the knowledge of object oriented programming language using Java.
- Helps students to; enhance their Interview handling skills, identify and develop knowledge and skills.

Benefits

- Core concepts of program structure and methodology which enables student to get basics of programming
- Create professional documents using Word, Analyze and manipulate data using Excel and create professional presentation using PowerPoint
- The Learner will be able to create flowcharts and write pseudocodes.
- This program imparts of information system and common Business Processes and Manage data using SQL
- Create object-oriented applications using Java The Programming in Java course is mapped with Oracle Certified Professional, Java SE 7
- Professional skills also include learning every aspect of a job and doing it to the best of one's ability.

Duration

400 Hours

Examination

Semester-1

Paper	Title of the paper
Paper-1	Introduction to computer and Operating System
Paper-2	Understanding Programming and Software Applications

Semester-2

Paper	Title of the paper
Paper-1	Fundamental of Data with Data Tools
Paper-2	MS Office Fundamental

Project

Project using Microsoft EXCEL 2013 and get presented using PowerPoint.

Semester-3

Paper	Title of the paper
Paper-1	Fundamental of Programming Part 1
Paper-2	Fundamental of ProgrammingPart 2

Semester-4

Paper	Title of the paper
Paper-1	Introduction of programming component
Paper-2	Data Management System

Project:

Project using SQL data base

Semester-5

Paper	Title of the paper
Paper-1	Fundamental of Java
Paper-2	Data Structure with Java and Concurrency API

Semester-6

Paper	Title of the paper
Paper-1	Professional Skill Development Part 1
Paper-2	Professional Skill Development Part 2

Project

Project using Core JAVA

Final Certificate after successful completion of three years: Diploma in Computer Applications

SEMESTER: 1

Objective

This program will enable the students to get overview of the computers and program structure and methodology.

Benefit

Core concepts of program structure and methodology which enables student to get basics of programming

Duration

59 hours

Examination

Pen & Paper after completion of program

Course contents& Syllabus

Introduction to computer and Operating System – Paper 1

- Identify various computer systems
 - Mini computers
 - Micro Computers
 - Desktop computers
 - Laptop
 - Palmtop
 - Super computers
- Identify components of a PC system
 - Motherboard
 - Hard disk
 - Lan card
 - Pen drive
 - Floppy drive
 - CD Drive
 - Printers
 - Plotters
 - Keyboard
 - Monitor
 - Central Processing Unit
 - Mouse
- Identify types of files used to organize data
 -
- Work with Windows
 - User Interface
 - Graphical user interface
 - Character user interface
 - Desktop
 - My computers
 - Folders and files

- Cut copy and paste.
- Work with Linux
 - Why Linux.
 - Properties of operating system.
 - Commands in Linux.
 - Graphical user interface in Linux.

Understanding Programming and Software Applications – Paper 2

- Use Internet and Social Networking media
 - How to use
 - Why to use.
 - Search engines
- Understand the need of Critical Thinking and Problem Solving in programming
 - What is Critical Thinking?
 - Why is critical thinking required?
 - Demonstration of critical thinking through practicals.
- Get acquainted with Digital Data
 - What is digital data and where we use it.
- Use algorithms for designing programs
 - Logic building.
 - Create flow charts.
 - Write pseudo codes.
- Identify and apply software testing techniques
 - What is a need to software testing?
 - Different tools of software testing.
- Work with MS word 13
 - Create Documents.
 - Open, save documents.
 - Print documents.
 - Cut Copy Paste
 - Mail merge
 - Representing Data in Tabular form.
 - Inserting data from different sources.
-

Certification

Certificate in Computer overview and programming structure and methodology

SEMESTER: 2

Objective

Create documents, Analyze data and make presentations

Benefit

Create professional documents using Word, Analyze and manipulate data using Excel and create professional presentation using PowerPoint

Duration

60 hours

Examination

Pen & Paper after completion of program

Course contents & Syllabus

Fundamental of Data with Data Tools – Paper 1

- Get introduced to IT Fundamentals and computer.
 - Recap of first semester.
- Work with MS Excel 2013
 - Worksheets and Workbook.
 - All functions.
 - Charts.
 - Pivot table.

MS Office Fundamental – Paper 2

- Work with MS Power Point 2013
 - Creating presentation.
 - Different views of slides.
 - Inserting clipart.
 - Animation in PowerPoint.
- Work with MS Outlook 2013
 - Configure Outlook.
 - Managing mails in different folders.
 - Usage of Calendar.
 - Usage of meetings.
- Get introduced to Digital Lifestyle.
 - What is digital lifestyle?

Certification

Certificate in Working with MS Office 2013

Project

Project using Microsoft EXCEL 2013 and get presented using PowerPoint.

SEMESTER: 3

Objective

The learner will be able to learn Logic Building and Effective Problem Solving

Benefit

The Learner will be able to create flowcharts and write pseudocodes.

Duration

70 hours

Examination

Pen & Paper after completion of program

Course contents & Syllabus

Fundamental of Programming Part 1 – Paper 1

- Identify the input and output requirements of a computer problem
 - What is input?
 - What is output?
 - Diagrammatic representation of input and output.
- Explain programs and programming languages
 - What is a program?
 - What is a programming language?
 - Different types of languages.
- Identify the various tools for problem solving
 - Input box
 - Output box
 - Start
 - Terminator.
 - Decision Box.
 - Flow of data.
- Solve problems using flowcharts
 - Represent log of the different problems using Flowcharts.
- Represent decisions and repetitive processes in a flowchart
 - Iterative Data.
 - Loops.

Fundamental of Programming Part 2 – Paper 2

- Solve problems using a pseudocode
 - What is a Pseudocode?
 - Representation of logic using pseudocodes.
- Use variables and constants
 - What is a variable and constants?
 - What is memory allocation?
- Identify data types
 - Different Data Types
 - Integer, character, float, double, string.
- Identify operators
 - Arithmetic operators.
 - Logical operators.
 - Boolean operators.
- Perform the conditional execution
 - If else conditions.

- When then

Certification

Certificate in Logic Building and Effective Problem Solving

SEMESTER: 4

Objective

This program focuses on enterprise resource planning, sales and marketing and managing data using SQL

Benefit

This program imparts of information system and common Business Processes and Manage data using SQL

Duration

66 hours

Examination

Pen & Paper after completion of program

Course contents & Syllabus

Introduction of programming component – Paper 1

- Implement iterative processes
 - Loops.
 - While loop.
 - Do while Loop.
- Implement modular programming
 - Functions.
 - Batches.
 - Procedures.
- Work with arrays
 - What is an array?
 - What is the difference between variable and Array.
 - Single dimensional Array
 - Double Dimensional Array.
 - Manipulate arrays using loops
- Understand Organization and their Business Processes
 - What is organization?

- What are different business processes?
- Understand Information Systems
 - What is information Systems?
 - How to implement Information systems
- Identify the need of Enterprise Resource Planning
 - Resource Planning.
 - Enterprise resource planning.
- Manage Sales and Marketing Using Information Systems
 - What is sales and Marketing?
 - Why Sales and Marketing?
 - How to implement Sales and Marketing using Information systems.

Data Management System – Paper 2

- Manage Production Using Information Systems
- Manage Logistics Using Information Systems
- Learn about Human Resource Management Using Information Systems
 - What is Human Resource?
 - What are the different Job roles of Human Resource?
 - How we can manage Human Resources using Information Systems.
- Manage Financial Accounting Using Information Systems
 - Idea of Financial Accounting?
 - Different tools in Information
- Create Financial Statements.
 - Trading Account.
 - Profit and loss Account.
 - Balance sheet.
 - Cash flow statement.
- Manage The Supply Chain Using Information Systems
 - Subsidiary books.
- Learn about Data Models
 - What is a Data Models?
 - Different types of Data Models.
- Create Database Design
 - What is a database?
 - Create database.
 - Manage database.
- Normalize and De-normalize Data
 - What is normalization?
 - Why to normalize data?
 - Different forms of Normal Form.
- Manipulate Data in Tables
 - What is a table?
 - What is tuple?
 - What is a field?
- Implement Indexes, Views, and Full-Text Search
 - What is an Index?
 - Why we need indexing.
 - Different types of Indexes.
 - Full-Text Search.
 - Why Views.

- Implement Stored Procedures and Functions
 - Stored procedures.
 - Stored procedures with input parameters.
 - Stored procedures with Output Parameters.
 - Functions
 - Difference between function and stored procedure.
- Work with Triggers and Transactions
 - Triggers.
 - Different types of Triggers.
 - Insert, update and delete Trigger.
- Monitor and Optimize Performance

Certification

Certificate in Information Systems and Common Business Processes

Project

Project using SQL data base

SEMESTER: 5

Objective

The objective of this course is to familiarize students with the knowledge of object oriented programming language using Java

Benefit

Create object-oriented applications using Java the Programming in Java course is mapped with Oracle Certified Professional, Java SE 7

Duration

77 hours

Examination

Pen & Paper after completion of program

Course contents & Syllabus

Fundamental of Java – Paper 1

- Get overview of Java
 - Java Programs Are Platform-Independent
 - Java SE Platform Versions
 - The Java Community, Open jdk
 - Class Structure , A Simple Class , Code Blocks , Primitive Data Types
 - Java SE 7 Numeric and Binary Literals
 - Strings and String operation , if-else
- Implement Operators
 - Logical Operators , Relational Operator, Arithmetic Operator
- Work with Conditional and Loop Constructs
 - Loop , for loop , while , do- while
 - Arrays and for-each Loop
 - String switch Statement
 - Class and Object, Method, Constructor , Creating an Instance of an Object
 - package Statement , import Statement
- Work with Arrays, Enums, and Strings
- Implement Inheritance and Polymorphism
 - Define Inheritance and Types of Inheritance
 - Abstract Class and Interface
 - Compile-time and Run-time Polymorphism
- Handle Errors and Events
 - Exception Categories , Exception Handling
 - The try-catch Statement , finally clause
 - Declaring and Throwing Exceptions
 - Layout Manager and Event Handling
- Work with Streams
 - Data Within Streams
 - Byte Stream InputStream and OutputStream Methods
 - Character StreamReader and StreamWriterMethods
 - Processing Streams

- Writing to Standard Output , Reading from Standard Input , Channel IO
- Persistence , Serialization and Object Graphs , Transient Fields and Objects
- Work with NIO Classes and Interfaces
 - New File I/O API (NIO.2) , Limitations of java.io.File , File Systems, Paths, Files
 - Relative Path Versus Absolute Path , Java NIO.2 Concepts
 - Path Interface
 - Removing Redundancies from a Path
 - Creating a Subpath , Joining Two Paths , Creating a Path Between Two Paths

Data Structure with Java and Concurrency API – Paper 2

- Get Introduced to JDBC
 - Using a Vendor's Driver Class
 - Create Applications Using Advanced Features of JDBC
 - Using a ResultSet Object , Controlling ResultSet Fetch Size
 - ResultSetMetaData
 - Using PreparedStatement , Using CallableStatement
- Apply Inner Classes and Type Casting
 - Anonymous Inner Classes
 - Nested Classes
 - Autoboxing and Autounboxing
- Work with Regular Expression and Localization
 - Pattern and Matcher
 - Character Classes , Predefined Character Classes
 - Quantifiers , Greediness , Boundary Matcher
 - Why Localize?
 - Locale , Resource Bundle , Resource Bundle File , Date and Currency
- Work with Generics
 - Simple Cache Class Without Generics
 - Generic Cache Class , Generics in Action , Generics with Type Inference Diamond
- Work with Collections
 - Collection Types , List Interface
 - ArrayList Implementation Class , ArrayList Without Generics
 - Set Interface and classes
 - Map Interface and classes
- Work with Threads
 - The Thread Class , Extending Thread , Starting a Thread
 - Implementing and executing Runnable
- Implement Thread Synchronization and Concurrency
 - The java.util.concurrent Package
 - The java.util.concurrent. Atomic Package
 - The java.util.concurrent. Locks Package

Certification

Certificate in JAVA 7

SEMESTER: 6

Objective

This course will enable student to; enhance their Interview handling skills, identify and develop knowledge and skills

Benefit

Professional skills also include learning every aspect of a job and doing it to the best of one's ability

Business writing skills and ability to provide data in standard formats is a key skill, employers look for.

Duration

68 hours

Examination

Pen & Paper after completion of program

Course contents & Syllabus

Professional Skill Development Part 1 – Paper 1

- Effective Conversation.
 - Identify the importance of conversation in communication
 - Explain the stages in a conversation
 - Identify the constituents of a good conversation
 - Understand the techniques to improve conversation
 - Identify common errors in speech
 - Practice conversational skills through role play
- Assertive Communication
 - Assess your assertive communication skills
 - Identify the features of assertive communication
 - Understand the techniques for assertiveness
 - Understand types of questions
 - Practice asking quality questions
- Written Communication
 - Identify the need of effective business writing
 - Understand the types of business writing
 - Appreciate and use five C's of effective writing
 - Identify and correct mistakes in writing
 - Identify how to make business writing effective
- Self-Presentation
 - Understand the concept and importance of first impressions
 - Understand the concept of 'self-brand'
 - Understand the importance of creating a visual identity
 - Understand grooming guidelines
- Working in Teams.
 - Understand teamwork and the importance of working in teams
 - Understand team roles and the responsibilities of a team member
 - Explain effective leadership
- Critical Thinking and Problem Solving
 - Apply critical thinking and problem solving techniques and processes
 - Summarise the process and conclusions derived

- Perform project management activities to fulfil the requirement of the assigned project

Professional Skill Development Part 2 – Paper 2

- Health, Safety and Security
 - Explain the need for workplace safety
 - Explain the basic workplace safety guidelines
 - Identify the common safety signs used
 - Identify and address security tests and risks
- Planning and Prioritizing
 - Explore the various strategies of effectively utilizing the available time
 - Create an action plan to manage time
 - Identify your role and responsibilities in carrying out your work
 - Identify the need to plan and organize your work to achieve targets and deadlines
- Values and ethics concepts
 - Understand the importance of business ethics
 - Understand the importance of business values
 - Identify the role of business values on quality and business growth
 - Evaluate what is responsibility and how to become responsible
 - Apply the guidelines for showing respect and maintaining integrity
- SWOT and Self-Awareness
 - Recognize personal strengths and weaknesses
 - Understand Personal Quality Initiative (PQI)
 - Create a self-development plan
- Providing Data in Various Formats
 - Understand the importance of presenting data in professional life
 - Identify the guidelines when presenting data
 - Identify the tools used to present and report data
 - Identify the different formats and reporting types used in professional life
- Develop your knowledge, skills, and competence
 - Provide data/ information in standard formats
 - Identifying training needs
 - Understanding Organization Policies and Procedures
 - Aptitude Test practice
- Understanding Organization Policies and Procedures
 - Understand the need of organization policies and procedures
 - Identify the common policies and procedures used in organizations

Certification

Certificate in Professional skills

Project

Project using Core JAVA

Advance Diploma Courses

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Advanced Diploma Course in Computer Education (Level-III)

Paper-L3-I: (Programming in 'C' Language)

Programming Fundamentals

Planning the Computer Program: Writing of algorithm, Characteristics of algorithm, making flowchart.

Advantages/ Disadvantages of flowchart, decision table structured programming.

C Language :

Data Types Operators and Expressions: Character Set, Identifiers and Keywords variables and constants; basic data types; arithmetic relational. Logical and bit-wise operators, Increment, decrement and ternary operators, type def, struct , enumerated data types; type conversion. Control Flows: if statements; switch statement; goto statement; while, do while and for statements, break and continue statement.

Arrays: Declaration, initialization and operations on arrays.

Software Lab.

1. Program to compute the average.
2. Write a program to check whether a number is even or odd.
3. Write a program to check whether a number is prime number or not.
4. Write a program to check whether a year is leap or not.
5. Write a program to find largest of three numbers.
6. Write a program to check whether a character is vowel or consonant using switch statement.
7. Write a program to find sum of 'n' natural numbers.
8. Program to compute the factorial of a given number.
9. Program to generate Fibonacci series.
10. Program to compute Least Common Multiple (LCM)
11. Program to compute Highest Common Factor (HCF)
12. Write a program to insert an element in an array.
13. Write a program to delete an element from array.
14. Write a program for linear searching.
15. Write a program to implement bubble sorting.
16. Program to find the largest and smallest element among 'n' numbers.
17. Program to add and subtract two matrices.
18. Program to compute the transpose of a matrix.

Paper-L3-II : (Web Designing)

Scripting Language

HTML: Basics of HTML, Basic tags, document tags, Empty tags Using lists in websites: nested and unordered list, menu list, Absolute links Relation links in website, image and images maps, Creation of tables. Forms frames and their division Use of Colours, Headings and Animation.

Web Authoring Tools

FrontPage : Front page express explorer, front page editor application of themes formatting of text on web page, creation of web pages, web sites, Hyperlinks images, images borders, formatting, multimedia, sound and Video effects enhancing tables Rows and Columns, cells, frames and frame properties. Tasks views web wizards. Radio buttons and Command buttons.

Macromedia Flash:

View Movie, Movie properties grid, oval tool creating symbol Gradients, rectangle tool, pencil tool grouping , layers renaming layer Adding new layer, rotate and scale changing the order of layers, key frames, Adding sound, Importing sound, stopping the action, adding button text tool.

Software Lab

HTML

1. Create any webpage using following HTML tags.
 - a. Background colour
 - b. Font (colour, size, face)
 - c. Bold, Italic, Underline.
 - d. Big/ Small
 - e. H1, H2 etc.
 - f. Marquee
 - g. Ordered/ Unordered list
 - h. Data list
2. Create Employee table and apply various operations on it using HTML also put border around the table.
3. Create Internal and External Hyperlinks in a webpage.
4. Implement the concept of frames in a webpage.
5. Insert an image in a webpage.
6. Design Home page of your Institute.
7. Design web page for tourism spots in your area.

8. Prepare your CV and link on the webpage.
9. Use animation of image in a webpage
10. Insert table and perform table handling in webpage.

Front Page

1. Use front page to create a new page using different text style.
2. Use front page to create a new page showing text and table box.
3. Use front page to create a new page using clip art gallery.
4. Use front page to create a new page using image from a scanner.
5. Use front page to create a web page of your institute
6. Use front page to create a web page showing tourism spots of your area
7. Use front page to use table handling in web page.

Flash

1. Create a blank flash document
2. Create a flash movie and customize the movie setting.
3. Set frame rate back ground colour dimensions to define size of movie.
4. Use of zoom tool from tool box.
5. Creating a shape with oval tool.
6. Add text to a button.
7. Make button symbol interactive (use of edit symbol button)
8. Add key frames to a button symbol time line.
9. Add sound to a button.
10. Verify changes with test movie.
11. Add layers to a movie
12. Animate text with twining.
13. Add a text field containing a string of text that will change every time a user presses button.
14. Add action script to the button enabling script to change the contents of the text field every time a user clicks the button.
15. Test the movie with flash player, return to main window and save the file.
16. Embed a flash movie in a web page.

Advanced Diploma in Software Development

Duration	2 Years
-----------------	----------------

1st Year	
Course Code	Course Name
BVSD-101	Computer Fundamentals and Programming in _C'
BVSD-102	PC Software
BVSD-103	COMMUNICATION SKILLS
BVSD-104	Software Lab- I
BVSD-105	Software Lab- II
BVSD-106	Data Structure Through _C'
BVSD-107	Object Oriented Programming using C++
BVSD-108	Environmental Science
BVSD-109	Software Lab-III
BVSD-110	Software Lab-IV
2nd Year	
Course Code	Course Name
BVSD-201	Web Designing
BVSD-202	JAVA Programming
BVSD-203	Visual Programming–Visual Basic, Visual C++
BVSD-204	Software Lab-V
BVSD-205	Software Lab-VI
BVSD-206	Computer Networks
BVSD-207	Advanced Java
BVSD-208	PHP Programming
BVSD-209	Software Lab-VII
BVSD-210	Software Lab-VIII

Computer Fundamentals and Programming in 'C'

BVSD-101
Time: 3Hrs

External Marks: 60
Internal Marks: 40

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Unit-I

Computer Fundamentals: Concept of data and information; Components of Computer: Hardware Input Device, Output Device. CPU: Components of CPU; Memory and Storage Devices; Computer Software: System Software and Application Software; Functions of Operating System. Programming Languages: Machine, Assembly, High Level Language, 4GL; Language Translator; Linker, Loader; Classification of Computers: Micro, Mini, Mainframe, Super computer. Advantages of Computer, Limitations of Computer, Range of Applications of Computer, Social concerns of Computer Technology: Positive and Negative Impacts, Computer Crimes, Viruses and their remedial solutions.

Unit-II

Problem Solving: pseudocode, Problem Identification, Analysis, Flowcharts, Decision Tables, Pseudo codes and algorithms, Program Coding, Program Testing and Execution. C Programming Fundamentals: Keywords, Variables and Constants, Structure of a C program. Operators & Expressions: Arithmetic, Unary, Logical, Bit-wise, Assignment & Conditional Operators, Library Functions, Control Statements: Looping using while, do...while, for statements, Nested loops; decision making using if...else, Else If Ladder; Switch, break, Continue and Goto statements.

Unit-III

Arrays & Functions: Declaration and Initialization; Multidimensional Arrays. String: Operations of Strings; Functions: Defining & Accessing User defined functions, Function Prototype, Passing Arguments, Passing array as argument, Recursion, Use of Library Functions; Macro vs. Functions. Pointers: Declarations, Operations on Pointers, Passing to a function, Pointers & Arrays, Array of Pointers, Array accessing through pointers, Pointer to functions, Function returning pointers, Dynamic Memory Allocations.

Unit-IV

Structures and Union: Defining and Initializing Structure, Array within Structure, Array of Structure, Nesting of Structure, Pointer to Structure, Passing structure and its pointer to Functions; Unions: Introduction to Unions and its Utilities. Files Handling: Opening and closing file in C; Create, Read and Write data to a file; Modes of Files, Operations on file using C Library Functions; Working with Command Line Arguments. Program Debugging and types of errors.

Suggested Readings

1. Gill Nasib Singh: Computing Fundamentals and Programming in C, Khanna Books Publishing Co., New Delhi.
- 5 | Page
2. Kenneth.A.: C problem solving and programming, Prentice Hall.
3. Gottfried, B.: Theory and problems of Programming in C, Schaum Series.
4. Gill, Nasib Singh: Handbook of Computers, Khanna Books Publishing Co., New Delhi.
5. Sanders, D.: Computers Today, Tata McGraw-Hill.
6. Rajender Singh Chhillar: Application of IT to Business, Ramesh Publishers, Jaipur.
7. Cooper, Mullish :The spirit of C, An Introduction to Modern Programming, Jaico Publ. House, New Delhi.
8. Kerninghan& Ritchie: The C Programming Language, PHI.
9. Gottfried, B.: Theory and problems of Programming in C, Schaum Series.
10. E. Balaguruswamy: Programming in C, Tata McGraw Hill.

11. H. Schildt: C-The Complete Reference, Tata McGraw Hill.
12. Y. Kanetkar: Let us C, BPB Publication Note: Latest and additional good books may be suggested and added from time to time.

BVSD-102: PC Software

External Marks:60

Internal Marks: 40

Time: 3 hours

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit- IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

UNIT - I

Operating system-Definition & functions, Concept of Multi Programming, Multitasking, Multithreading, Multiprocessing, Timesharing, Real time, Types of Operating System.

MS-Windows Basic components of windows, icons, types of icons, taskbar, activating windows, using desktop, title bar, running applications, exploring computer, managing files and folders, copying and moving files and folders. Control panel – display properties, adding and removing software and hardware, setting date and time, screensaver and appearance using windows accessories.

UNIT - II

Documentation Using MS-Word - Introduction to word processing interface, Toolbars, Menus, Creating & Editing Document, Formatting Document, Finding and replacing text, Format painter, Header and footer, Drop cap, Auto-text, Autocorrect, Spelling and Grammar Tool, Document Dictionary, Page Formatting, Bookmark, Previewing and printing document, Advance Features of MS-Word-Mail Merge, Macros, Tables, File Management, Printing, Styles, linking and embedding object, Template.

UNIT - III

Electronic Spread Sheet using MS-Excel - Introduction to MS-Excel, Cell, cell address, Creating & Editing Worksheet, Formatting and Essential Operations, Moving and copying data in excel, Header and footer, Formulas and Functions, Charts, Cell referencing, Page setup, Macros, Advance features of MS-Excel-Pivot table & Pivot Chart, Linking and Consolidation, Database Management using Excel- Sorting, Filtering, Validation, What if analysis with Goal Seek, Conditional formatting, Collaborating with Other Users, Analyzing and Presenting Complex data.

UNIT - IV

Presentation using MS-PowerPoint: Presentations, Creating, Manipulating & Enhancing Slides, Organizational Charts, Excel Charts, Word Art, Layering art Objects, Animations and Sounds, Inserting Animated Pictures or Accessing through Object, Inserting Recorded Sound Effect or In-Built Sound Effect., Introduction to MS Access: creating database creating and manipulating tables, forms, queries, reports, modules, importing and exporting of data. Overview of MS Outlook.

7. Learn Microsoft Office – Russell A. Stultz – BPB Publication
8. Courter, G Marquis (1999). Microsoft Office 4000: Professional Edition. BPB.
9. Koers, D (4001). Microsoft Office XP Fast and Easy. PHI.
10. Nelson, S L and Kelly, J (4002). Office XP: The Complete Reference. Tata McGraw-Hill.

Note: Latest and additional good books may be suggested and added from time to time.

BVSD-103:

Communication Skills

Time: 3 hours

External Marks: 60

Internal Marks: 40

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit- IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

UNIT-I

Introduction to Basics of Communication: Communication and its various definitions, features/characteristics of the communication, process of communication, communication model and theories, barrier to effective communication. Importance of working in Teams, Apply effective conversation skills, practice assertive communication skills.

UNIT-II

Improving LSRW: introduction, verbal and nonverbal communication, listening process, group discussion, forms of oral presentation, self-presentation, dyadic communication, 5C_s of communication, Developing dialogues, soft skill.

UNIT-III

Basic vocabulary: how to improve vocabulary, prefix/suffix, synonyms/antonyms, one word substitution, spellings Developing fluency: Grammar (conjunction, auxiliaries, prepositions, articles, tenses.....), language games.

Proper use of Language: The Communication Skills, The effective Speech. Effective self-presentation & facing interview: The interview process & preparing for it, The presentation skills.

UNIT-IV

SWOT and Self Awareness, Effective business writing skills, Identify and apply business ethics, Apply Critical thinking and problem solving skills, Identify the importance of planning and prioritizing tasks.

SUGGESTED READINGS

7. K K Sinha, —Business CommunicationII, Himalaya Publishing House / Galgoria Publication
8. Bovee, —Business CommunicationII, Pearson _ PHI
9. Mohan, Banerjee, Business Communication, Mac millan
10. Raman, Singh – Business communication – Oxford Press

Note: Latest and additional good books may be suggested and added from time to time.

BVSD-104: Software Lab- I

**External Marks: 60
Internal Marks: 40**

Based on paper BVSD-101

**Note: Paper BVSD -104 Practical ('C' Language)
for External Marks 60 will be conducted by
External Examiner appointed by University.**

BVSD-105: Software Lab- II

**External Marks: 60
Internal Marks: 40**

Based on paper BVSD-102

Note: Paper BVSD -105, Practical (Ms-Office) for External Marks 60 will be conducted by External Examiner appointed by University.

BVSD-106: Data Structure through 'C'

External Marks: 60

Time: 3 hours

Internal Marks: 40

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit- IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Unit-I

Introduction: Elementary data organization, Data Structure definition, Data type vs. data structure, Categories of data structures, Data structure operations, Applications of data structures, Algorithms complexity and time-space trade off, Big-O notation. Strings: Introduction, Storing strings, String operations, Pattern matching algorithms. Arrays: Introduction, Linear arrays, Representation of linear array in memory Multidimensional arrays, Operations in Arrays, Sparse arrays. Linked List: Introduction, Array vs. linked list, Representation of linked lists in memory, Traversal, Insertion, Deletion, Searching in a linked list, Header linked list, Circular linked list, Two-way linked list, Threaded lists, Garbage collection, Applications of linked lists.

UNIT – II

Stack: Introduction, Array and linked representation of stacks, Operations on stacks, Applications of stacks: Polish notation, Recursion. Queues: Introduction, Array and linked representation of queues, Operations on queues, Deques, Priority Queues, Applications of queues. Tree: Introduction, Definition, Representing Binary tree in memory, Traversing binary trees, Traversal algorithms using stacks Tree: Header nodes, Threads, Binary search trees, Searching, Insertion and deletion in a Binary search tree, AVL search trees, Insertion and deletion in AVL search tree. B-trees, Searching, Insertion and deletion in a B-tree, B+tree, Huffman's algorithm, General trees.

UNIT – III

Graph: Introduction, Graph theory terminology, Sequential and linked representation of graphs.

Graphs: Warshall's algorithm for shortest path, Dijkstra algorithm for shortest path, Operations on graphs, Traversal of graph, Sorting: Internal & external sorting, Radix sort, Quick sort, Heap sort, Merge sort, Tournament sort, Searching: Linear search, binary search, merging, Comparison of various sorting and searching algorithms on the basis of their complexity.

UNIT – IV

Files: Physical storage devices and their characteristics, Attributes of a file viz fields, records, Fixed and variable length records, Primary and secondary keys, Classification of files, File operations, Comparison of various types of files, File organization: Serial, Sequential, Indexed-sequential, Random- access/Direct, Inverted, Multilist file organization. Hashing: Introduction, Hashing functions and Collision resolution methods.

Note: Latest and additional good books may be suggested and added from time to time.

BVSD-107: Object Oriented Programming using C++

Time: 3 hours

External Marks: 60

Internal Marks: 40

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit- IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

UNIT-I

Introduction to C++ - key concepts of Object-Oriented Programming –Advantages – Object Oriented Languages – I/O in C++ - C++ Declarations. Control Structures: - Decision Making and Statements : If .. else ,jump, goto, break, continue, Switch case statements - Loops in C++ : For,While, Do - Functions in C++ - Inline functions – Function Overloading.

UNIT-II

Classes and Objects: Declaring Objects – Defining Member Functions – Static Member variables and functions – array of objects –friend functions – Overloading member functions – BVSD fields and classes – Constructor and destructor with static members.

UNIT-III

Operator Overloading: Overloading unary, binary operators – Overloading Friend functions – type conversion – Inheritance: Types of Inheritance – Single, Multilevel, Multiple, Hierarchal, Hybrid, Multi path inheritance – Virtual base Classes – Abstract Classes.

UNIT-IV

Pointers – Declaration – Pointer to Class , Object – this pointer – Pointers to derived classes and Base classes – Arrays – Characteristics – array of classes – Memory models – new and delete operators – dynamic object – Binding , Polymorphism and Virtual Functions. Files – File stream classes – file modes – Sequential Read / Write operations – Binary and ASCII Files – Random Access Operation – Templates – Exception Handling, File Input and output, String – Declaring and Initializing string objects – String Attributes – Miscellaneous functions .

Note: Latest and additional good books may be suggested and added from time to time.

BVSD-108: Environmental Science

External Marks: 60

Time: 3 hours

Internal Marks: 40

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit- IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

UNIT-I

Environmental studies – Nature, scope and importance, need for public awareness; natural resources – renewable and non-renewable resources, use and overexploitation/ over-utilization of various resources and consequences; role of an individual in conservation of natural resources; equitable use of resources for sustainable lifestyles

UNIT-II

Ecosystems – concept, structure and function of an ecosystem; energy flow in the ecosystem; ecological succession; food chains, food webs and ecological pyramids; types of ecosystem – forest ecosystem, grassland ecosystem, desert ecosystem, aquatic. Environmental Pollution – Definition, cause, effects and control measures of different types of pollutions – air pollution, water pollution, soil pollution, marine pollution, noise pollution, thermal pollution, nuclear hazards; solid waste management – causes, effects and control measures of urban and industrial wastes; role of an individual in prevention of pollution

UNIT-III

Social issues and the environment – Sustainable development, urban problems related to energy, water conservation, rain water harvesting, watershed management; resettlement and rehabilitation of people, its problems and concerns; climate change, global warming, acid rain, ozone layer depletion, nuclear accidents and holocaust; Wasteland reclamation, consumerism and waste products

UNIT-IV

Environmental legislation – Environment Protection Act, Air (prevention and control of pollution) Act, Water (prevention and control of pollution) Act, Wildlife Protection Act, Forest Conservation Act

8. Ubaroi, N.K., Environment Management, Excel Books, New Delhi

Note: Latest and additional good books may be suggested and added from time to time

BVSD-109: Software Lab-III

External Marks: 60
Internal Marks: 40

Based on paper BVSD-106

Note: Paper BVSD -109 Practical (**Data Structure Through 'C'**) for External Marks 60 will be conducted by External Examiner appointed by University.

BVSD-110: Software Lab-IV

External Marks: 60
Internal Marks: 40

Based on paper BVSD-107

Note: Paper BVSD -110 Practical (**Object Oriented Programming using C++**) for External Marks 60 will be conducted by External Examiner appointed by University.

Time: 3 hours

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit- IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

UNIT – I

Introduction to Internet and World Wide Web; Evolution and History of World Wide Web; Basic features; Web Browsers; Web Servers; Hypertext Transfer Protocol, Overview of TCP/IP and its services; URLs; Searching and Web-Casting Techniques; Search Engines and Search Tools;

UNIT – II

Web Publishing: Hosting your Site; Internet Service Provider; Web terminologies, Phases of Planning and designing your Web Site; Steps for developing your Site; Choosing the contents; Home Page; Domain Names, Front page views, Adding pictures, Links, Backgrounds, Relating Front Page to DHTML. Creating a Website and the Markup Languages (HTML, DHTML);

UNIT – III

Web Development: Introduction to Responsive web design and HTML5; Hypertext and HTML; HTML Document Features; HTML command Tags; Creating Links; Headers; Text styles; Text Structuring; Text colors and Background; Formatting text; Page layouts, Viewport and Media Queries, Adding Fluidity to a website, Introduction to Java Script Libraries, Manipulating and Traversing HTML DOM using JQuery with examples, Event Driven Programming with JQuery and AJAX, Using Twitter Bootstrap.

UNIT – IV

Images; Ordered and Unordered lists; Inserting Graphics; Table Creation and Layouts; Frame Creation and Layouts; Working with Forms and Menus; Working with Radio Buttons; Check Boxes; Text Boxes; DHTML: Dynamic HTML, Features of DHTML, CSS (cascading style sheet positioning) and JSS (JavaScript assisted style sheet), Layers of Netscape, The ID attributes, DHTML events. Introducing Geo Location and Offline support for data.

SUGGESTED READINGS

1. Raj Kamal, –Internet and Web TechnologiesI, Tata McGraw-Hill.
2. Ramesh Bangia, –Multimedia and Web TechnologyI, Firewall Media.
3. Thomas A. Powell, –Web Design: The Complete ReferenceI, 4/e, Tata McGraw- Hill
4. Wendy Willard, –HTML Beginners GuideI, Tata McGraw-Hill.
5. Deitel and Goldberg, –Internet and World Wide Web, How to ProgramI, PHI.

Note: Latest and additional good books may be suggested and added from time to time.

BVSD-202:

Java Programming

Time: 3 hours

External Marks: 60
Internal Marks: 40

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

UNIT-I

Fundamentals of Object-Oriented Programming: Object-Oriented Paradigm – Basic Concepts of Object-Oriented Programming – Benefits of Object-Oriented Programming – Application of Object-Oriented Programming. Java Evolution: History – Features – How Java differs from C and C++ – Java and Internet – Java and www –Web Browsers. Overview of Java: simple Java program
– Structure – Java Tokens – Statements – Java Virtual Machine.

UNIT-II

Constants, Variables, Data Types - Operators and Expressions – Decision Making and Branching: if, if ..else, nested if, switch, ? : Operator - Decision Making and Looping: while, do, for – Jumps in Loops - Labeled Loops – Classes, Objects and Methods. Generic and Collections, Garbage Collection.

UNIT-III

Arrays, Strings and Vectors, Abstract class and its uses, Interfaces, Inheritance: Types of Inheritance, Packages, Threading and Concurrency, Introduction to JDBC.

UNIT-IV

Managing Errors and Exceptions – Applet Programming – Graphics Programming. Managing Input / Output Files in Java : Concepts of Streams- Stream Classes – Byte Stream classes – Character stream classes – Using streams – I/O Classes – File Class – I/O exceptions – Creation of files – Reading / Writing characters, Byte-Handling Primitive data Types – Random Access Files.

SUGGESTED READINGS

1. PROGRAMMING WITH JAVA – A PRIMER - E. Balagurusamy, 3 rd Edition, TMH
2. THE COMPLETE REFERENCE JAVA 2 - Patrick Naughton& Hebert Schildt, 3rd ed, TMH
3. PROGRAMMING WITH JAVA – John R. Hubbard, 2nd Edition, TMH.

Note: Latest and additional good books may be suggested and added from time to time.

BVSD-203: Visual Programming–Visual Basic, Visual C++

Time: 3 hours

External Marks: 60

Internal Marks: 40

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit- IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

UNIT-I

Introducing Visual Basic: What is VB? – Event and Event Procedures – Object related concepts – VB program Development Process- Logical Program Organization -VB Program Components – VB environment – Opening, Saving, Running a VB Project –Visual Basic Fundamentals: constants – Variables – Data Types and Declarations – Operators and Expressions – Program Comments. Branching and Looping: Relational operators and Logical Expressions – Branching with If-Then, If- Then-Else blocks – Selection Select Case – Looping with For-Next, Do-Loop, While-Wend – Stop statement.

UNIT-II

Visual Basic control Fundamentals: Control tools – Control tool Categories – Working with Controls – Naming Forms and Controls – Assigning Property values to Forms and Controls – Executing commands – Displaying Output – Entering Input Data – Selecting Multiple Features, Exclusive Alternatives, Form from a List - Assigning Properties collectively – Generating Error Messages – Creating timed Events – Scroll Bars. Menus and Dialog Boxes: Building Drop-Down Menus – Accessing Menu from Keyboard – Menu Enhancements – Submenus – Pop-Up Menus – Dialog Boxes – more about MsgBox Function – The Input Box function.

UNIT-III

Procedures: Modules and Procedures – Sub Procedures – Event Procedures – Function Procedures – Scope – Optional Arguments. Arrays: Characteristics – Declarations –Processing – Passing Arrays to Procedures – Dynamic Arrays – Array-related Functions – Control Arrays – Looping with for Each- Next. Data Files : Sequential Data Files – Random-Access Data files– Binary files.

UNIT IV

Visual C++: Programming: MFC and Windows – MFC Fundamentals – MFS Class Hierarchy – MFC Member & Global Functions – Various Object Properties – Cobject, CArchive, CWinApp, CWnd, CFile, CGD, Object, CExcept, CDialog, CString, CEdit, CList – Resources: Menus – Accelerators, Dialogs, Icons, BVSDmaps, Versions – Message Maps – Document/View Architecture. VC++ (Contd): connecting to Data Source – DAO – ODBC – Thread – Based Multitasking – Visual C++ APPWIZARD and class Wizard, Concepts of MS SQL Server, Query Analyzer, Enterprise Manager, Creating database, tables, modules, users, roles, etc. Connectivity of VB applications with SQL database.

SUGGESTED READINGS

1. VISUAL BASIC – Byron S. Gottfried, Schaum's Outline series, TMH.
2. Eric A Smith, ValorWhisher, Hank Marquis, —Visual Basic 6 Programming Bible
3. Herbert Schildt, —MFC Programming From the Ground up, Second Edition, Tata McGrawHill.
4. Cornell, —Visual Basic 6 From the Ground Up, Tata Mcgraw – Hill Company Ltd
5. Mveller, —Visual C++ from the Ground up, TMCH.

Note: Latest and additional good books may be suggested and added from time to time.

BVSD-204:

Software Lab-V

External Marks: 60

Internal Marks: 40

Based on paper BVSD-401

Note: Paper BVSD -404 Practical (HTML, DHTML) for External Marks 60 will be conducted by External Examiner appointed by University.

BVSD-205:

Software Lab-VI

External Marks: 60

Internal Marks: 40

Based on paper BVSD-402

Note: Paper BVSD -405 Practical (Java) for External Marks 60 will be conducted by External Examiner appointed by University.

BVSD-206:

Computer Networks

Time: 3 hours

External Marks: 60

Internal Marks: 40

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit- IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Unit-I

Introduction to communications and Networking : Introduction–Fundamental concepts - Datacommunications – Protocols- standards - Standards organizations - Signal propagations- Analog and Digital signals- Bandwidth of a signal and a medium - Fourier analysis and the concept of bandwidth of a signal - The data transmission rate and the bandwidth. **Information encoding:** Introduction – Representing different symbols- Minimizing errors- Multimedia – Multimedia and Data compression.

UNIT- II

Analog and digital transmission methods: Introduction - Analog signal, Analog transmission -Digital signal, Digital transmission - Digital signal , Analog transmission - Baud rate and BVSDs per second - Analog signal, Digital (Storage and) transmission - Nyquist Theorem. **Modes of datatransmission and Multiplexing:** Introduction–Parallel and Serial communication -Asynchronous, Synchronous and Isochronous communication - Simplex, Half-duplex and Full-duplex communication – Multiplexing - Types of Multiplexing - FDM versus TDM. **TransmissionErrors: Detection and correction:** Introduction–Error classification–Types of Errors–Errordetection.

UNIT- III

Transmission media: Introduction - Guided media - Unguided media - Shannon capacity.

Network topologies, switching and routing algorithms: Introduction - Mesh topology - Startopology - Tree topology - Ring topology - Bus topology - Hybrid topology - Switching basics-Circuit switching – Packet switching - Message switching - Router and Routing – Factors affecting routing algorithms - Routing algorithm -Approaches to routing.

UNIT- IV

Networking protocols and OSI model: Introduction–Protocols in computer communications -The OSI model - OSI layer functions. **Integrated services digital networking (ISDN):**

Introduction – Background of ISDN - ISDN architecture – ISDN interfaces - Functional grouping – Reference points - ISDN protocol architecture - Broadband ISDN (B-ISDN) of ATM – Packet size – Virtual circuits in ATM – ATM cells – Switching – ATM layers – Miscellaneous Topics, Network protocols; IP, IPv4, IPv6, UDP, TCP,HTTP, SHTTP, FTP, POP, SMTP, etc.

SUGGESTED READINGS

1. COMPUTER NETWORKS – Andrew S. Tanenbaum, 4th edition, PHI.
2. DATA COMMUNICATION AND NETWORKS – AchyutGodbole, 4007, TMH.. COMPUTER NETWORKS Protocols, Standards, and Interfaces – Uyles Black, 2nd ed, PHI.

Note: Latest and additional good books may be suggested and added from time to time.

BVSD-207:

Advanced Java

Time: 3 hours

External Marks: 60

Internal Marks: 40

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

UNIT - I

Introduction to Java and Framework, Data types, variables, operators, Arrays, Control Statements, Classes & Methods, Inheritance, Exception Handling, Multithreading, Collections, I/O streams, AWT & Applet programming. Connecting to a Server, Implementing Servers, Making URL Connections, Advanced Socket Programming

UNIT- II

The Design of JDBC. The Structured Query Language, JDBC Installation, Basic JDBC Programming Concepts, Query Execution, Scrollable and Updatable Result Sets, Metadata, Row Sets, Transactions, Advanced Connection Management, Introduction of LDAP The Roles of Client and Server, Remote Method Invocations, Setup for Remote Method Invocation, Parameter Passing in Remote Methods Server Object Activation, Java IDL and CCRA, Remote Method Calls with SOAP

UNIT III

Introduction to SWING, Build application using JAVA BEANS, Life Cycle of SERVLETS: Advantage and Disadvantages of Servlets, Servlet API, CGI, Servlet Terminologies, javax.servlet package, Servlet Package: Servlet Request, Servlet Response, Request Dispatcher, Servlet Config and Context, JSP Technology, JSTL tags EL in Web Applications, Overview of XML and attachment of JSP file to .java file.

UNIT IV

Sending E-Mail, E-Mail API, Filters, Sessions management Techniques, AJAX and asynchronous Servlets, Need for Web Security and Types of Security Threats, Hibernate, Spring, Authentication and Authorization using JAAS.

Suggested Readings:

1. Core Java™ 2, Volume II-Advanced Features, 7th Edition by Cay Horstmann, Gary Cornell Pearson Publisher, 4004
2. Professional Java Programming by Brett Spell, WROX Publication
3. Advanced Java 2 Platform, How to Program, 2nd Edition, Harvey. M. Dietal, Prentice Hall
4. Advanced Java, Gajendra Gupta , Firewall Media

Note: Latest and additional good books may be suggested and added from time to time.

BVSD-208:

PHP Programming

Time: 3 hours

External Marks: 60

Internal Marks: 40

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit -I to Unit- IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

UNIT – I

Introducing PHP – Basic development Concepts – Creating first PHP Scripts – Using Variable and Operators – Storing Data in variable – Understanding Data types – Setting and Checking variables Data types – Using Constants – Manipulating Variables with Operators.

UNIT – II

Controlling Program Flow: Writing Simple Conditional Statements - Writing More Complex Conditional Statements – Repeating Action with Loops – Working with String and Numeric Functions.

UNIT – III

Working with Arrays: Storing Data in Arrays – Processing Arrays with Loops and Iterations – Using Arrays with Forms - Working with Array Functions – Working with Dates and Times.

UNIT – IV

Using Functions and Classes: Creating User-Defined Functions - Creating Classes – Using Advanced OOP Concepts. Working with Files and Directories: Reading Files-Writing Files-Processing Directories. Working with Database and SQL : Introducing Database and SQL- Using MySQL-Adding and modifying Data-Handling Errors – Using SQLite Extension and PDO Extension. Introduction XML— Simple XML and DOM Extension.

SUGGESTED READINGS

1. Christopher J.Goddard, Mark White, —Mastering VB ScriptII, Galgotia publications, New Delhi.

Note: Paper BVSD -210 Practical (PHP Programming) for External Marks 60 will be conducted by External Examiner appointed by University.

Aggarwal College Ballabgarh

A Post Graduate Co-educational College
(Affiliated to M. D. University, Rohtak)
NAAC Accredited 'A' Grade (CGPA: 3.40)

Advanced Diploma in Retail Management

Duration	3 Years
Course Code	Course Name
BVRM-101	English
BVRM -102	Basics of marketing
BVRM -103	Fundamentals of Customer Services
BVRM -104	Basics of Retailing
BVRM -105	Project Work (Safety methods at work Place)
BVRM-106	Computer Practical-I (MS-Office)
BVRM -107	Computer Application in Retail Business
BVRM -108	Fundamental of Accounting
BVRM -109	Environmental Studies
BVRM -110	Business organisation and management
BVRM -111	Project Work (Health and Hygiene at work place)
BVRM -112	Store Operations-I
BVRM -201	Business communication
BVRM -202	Basic Maths and Statistics
BVRM -203	Customer Relationship Management
BVRM -204	Retail Management
BVRM -205	Project Work (customer needs and satisfaction)
BVRM -206	Computer Practical-II-Ms- PowerPoint& Internet)
BVRM -207	Business Economics
BVRM -208	Human Resources Management
BVRM -209	Supply Chain Management
BVRM-210	Consumer Behaviour
BVRM -211	Project Work
BVRM -212	Store Operations-II(Including Warehouse)
BVRM-301	Personality and soft skill development
BVRM -302	Store Layout and Design
BVRM -303	Organisational Behaviour
BVRM -304	Elements of Salesmanship
BVRM -305	Tally
BVRM -306	Summer Training

BVRM -307	Merchandise buying and planning
BVRM -308	Retail Operations
BVRM -309	Entrepreneurship Development
BVRM -310	Advertising and Brand management
BVRM -311	Fundamentals of Visual Merchandising (VM)
BVRM -312	Comprehensive Viva-Voce

BVRM -101: ENGLISH

External Marks: 60

Internal Marks: 40

Time: 3 hours

Total Credits as per Qualification pack: 5

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

- Objective:**
1. To make the students conversant and fluent in English
 2. RAS/ NO114 To Process credit applications for purchases
 3. RAS/ NO126 To help customers choose right products
 4. RAS/ NO130 To create a positive image of self and organisation in the customers mind
 5. RAS/ NO132 To resolve customer concerns
 6. RAS/ NO134 To improve customer relationship
 7. RAS/NO 137 To work effectively in your team
 8. RAS/NO 138 To work effectively in your organisation

UNIT I

Tenses, Auxiliaries, Subject-Verb Concord, , Conjunction, Preposition, Articles.

UNIT II

Synonyms/Antonyms, Homophones, Prefix, Suffix, One Word Substitution.

UNIT III

Translation (Hindi to English),Retranslation(English to Hindi)Curriculum Vitae, Paragraph Writing on current and business issues.

UNIT IV

Comprehension, , Dialogues Writing, Voices, Narration

SUGGESTED READINGS:

9. Communication Skills in English by D.G. Saxena & Kuntal Tamang
10. *Word Power Made Easy* by Norman Lewis
11. Remedial English *Grammar* by *Frederick T. Wood*
12. Intermediate Grammar Usage & Composition by Tickoo M.L.

Note: Latest and additional good books may be suggested and added from time to time.

BVRM-102 BASICS OF MARKETING

External Marks: 60

Internal Marks: 40

Time: 3 hours

Total Credits as per Qualification pack: 5

Note: Examiner will be required to set NINE questions in all. Question Number 1 will consist of total 10 parts (short-answer type questions) covering the entire syllabus and will carry 20 marks. In addition to the compulsory question there will be four units i.e. Unit-I to Unit-IV. Examiner will set two questions from each Unit of the syllabus and each question will carry 10 marks. Student will be required to attempt FIVE questions in all. Question Number 1 will be compulsory. In addition to compulsory question, student will have to attempt four more questions selecting one question from each Unit.

Objective: 1.To help students to understand the concept of marketing and its applications

2. To expose the students to the latest trends in marketing.
3. RAS/NO 135 to monitor and solve service problems
4. RAS/NO 136 to promote continuous improvement in service

To provide value oriented holistic education, particularly to the rural areas, college has some good practices like Mentoring System, Cultural Activities, Sports Club, Red Ribbon Club, Entrepreneur Club, Equal Opportunity Cell, Online Feedback from stakeholders and a number of fora/societies of different streams. In order to sustain quality education and to set the benchmark in

holistic education, the college is being guided by Internal Quality Assurance Cell (IQAC) which sets goals for the overall development of the institution. A number of our students have outperformed in Sports & Cultural activities and brought laurels to the college both at National and International Level.

The college has been reaccredited 'A' Grade with CGPA 3.40 by NAAC in 2014.

The college has been granted 'College with potential for Excellence' (CPE) status by UGC, New Delhi.
